ELECTRIC DRYERS

Ultra-Large Capacity

Do laundry a little less often. With 7.3 cubic feet of capacity, this dryer handles really large loads. Saving you time and energy.

Smart Diagnosis™

It's unlikely you'll experience any problems with your LG dryer, but if you ever do, this feature helps the service centre diagnose problems over the phone, helping you minimize costly, inconvenient service calls.

Sensor Dry System

What's worse than pulling clothes out of the dryer and finding they're still damp? Our Sensor Dry System measures the moisture levels during the cycle and automatically adjusts the drying time, assuring you get dry laundry every time.

FlowSense™ Duct Clogging Indicator

The FlowSense™ Duct Clogging Indicator will tell you when it's time to clean the ducts out. Clean ducts mean a great drying every time.

Wrinkle Care Cycle

Pressed for time? Just pop your dry clothes in for a tumble on the Wrinkle Care Cycle to reduce creases.
