ELECTRIC DRYERS

TrueSteam™ Technology

A lot of those drying headaches can be a thing of the past. TrueSteam™ Technology generates real steam to reduce wrinkles and odours, and practically eliminates the need for ironing.

SteamFresh™ Cycle

Late for the party and no time to iron your favourite outfit? The SteamFresh™ Cycle refreshes, and reduces wrinkles in up to five garments at a time with one 20-minute dryer cycle.

Smart Diagnosis™

It's unlikely you'll experience any problems with your LG dryer, but if you ever do, this feature helps the service centre diagnose problems over the phone, helping you minimize costly, inconvenient service calls.

Ultra-Large Capacity

Do laundry a little less often. With 7.4 cubic feet of capacity, this dryer handles really large loads. Saving you time and energy.

Intelligent Electronic Controls with Dual LED Display and Dial-A-Cycle™

Let us take the guesswork out of doing the laundry. The intuitive Intelligent Electronic Control Panel with Dual LED Display and Dial-A-Cycle™ makes it easy to find the right setting every time.

Sensor Dry System

What's worse than pulling clothes out of the dryer and finding they're still damp? Our Sensor Dry System measures the moisture levels during the cycle and automatically adjusts the drying time, assuring you get dry laundry every time.
