

## LG Electronics Australia Business Hub

**IMPORTANT: The below terms apply IN ADDITION to LG Terms and Conditions of Sale**  
<https://www.lg.com/au/terms-and-conditions-of-sale/>

### Access to the LG Business Hub (Business Hub)

LG Business Hub (Business Hub) is a dedicated online portal for eligible small to medium-sized Australian businesses, providing access to tailored bulk pricing, special offers and promotions designed to support business purchasing needs.

Access to the Business Hub is restricted to the Business Hub account holders. To create a Business Hub account, you are required to use a valid Australian Business Number (ABN). During the account creation process, the ABN will be validated. Upon successful validation, access to the Business Hub may be granted at our discretion. By creating and maintaining a Business Hub account, you warrant and represent that:

- you are an authorised representative of the business in whose name the account is created;
- you have authority to place orders and enter into transactions on behalf of that business; and
- all products purchased through the Business Hub are acquired solely for the internal business use of that legal entity.

To access any offers or promotions made available via the Business Hub, purchases must be made through a registered Business Hub account. Products purchased through the Business Hub are intended solely for the internal business use of the purchasing business. Resale of any products purchased through the Business Hub is strictly prohibited. Product prices are as displayed on the Business Hub and include GST.

We reserve the right, at any time and without notice, to cancel orders, suspend or terminate access to the Business Hub, and/or block or close any Business Hub account where we reasonably suspect that products purchased through the Business Hub have been resold or otherwise used in breach of these Terms.

These terms apply IN ADDITION to the LG Terms and Conditions of Sale <https://www.lg.com/au/terms-and-conditions-of-sale/>
