Provides Optimal Storage Algorithm Based on Usage Pattern Analysis

Wi-Fi Convertible

Looking for more fridge space for your groceries? Get the LG Bottom Freezer Refrigerator and convert your bottom freezer into additional fridge space from anywhere, anytime with the convenience of Wi-Fi. Whether it's extra groceries or festive leftovers, keep everything fresh and organized effortlessly!

Smart Learner™

Your refrigerator just got a lot smarter with Smart Learner™

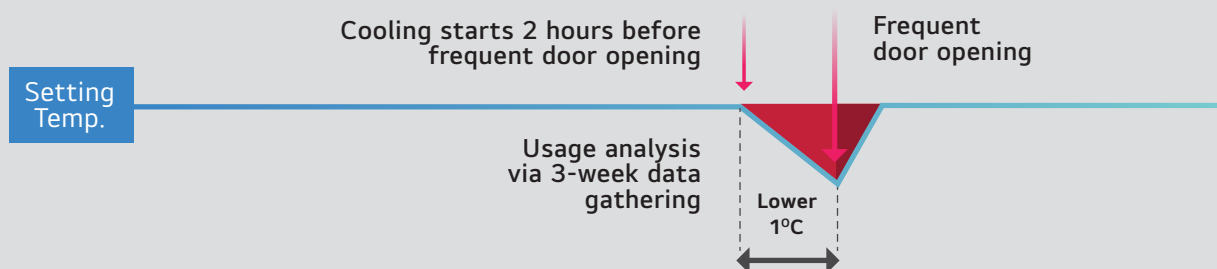

LG's Smart Learning Technology learns your usage pattern for over three weeks. Then it optimizes everything from cooling performance to energy consumption as per your usage.

Smart Fresh Air

Applies algorithm to analyze usage pattern and optimizes temperature.

Smart Fresh Air Algorithm

Smart Fresh Air minimizes the rise in inner temperature with the help of intensive cooling logic just two hours before user's frequent door opening time. It does so by accumulating data on hourly, daily, and weekly basis.

Smart **Diagnosis**[™]

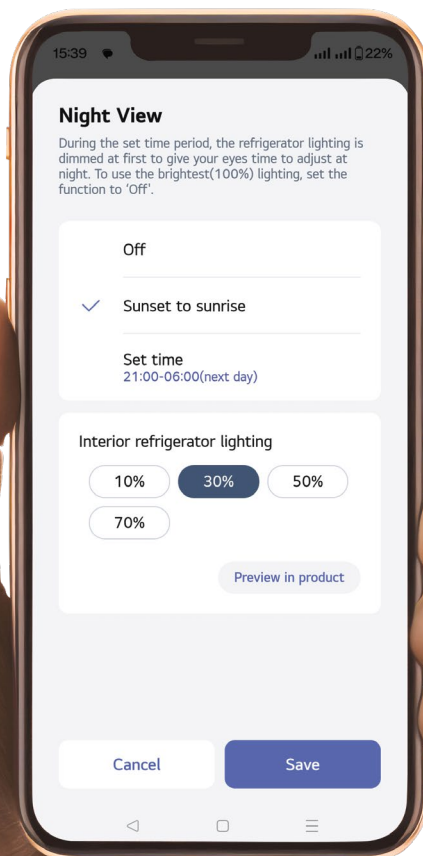

If something doesn't feel right, LG's Smart Diagnosis has you covered. Simply call the LG Customer Service Helpline and place your phone near the appliance. In seconds, the appliance communicates with our system to pinpoint the issue for the system to provide an instant solution - saving you time and hassle.

Freshness

DoorCooling⁺

Why compromise on less cooling in your fridge door when you can enjoy evenly distributed cooling across shelves and doors? Say goodbye to warm spots and hello to consistent freshness with DoorCooling⁺™ which keeps food fresh and drinks perfectly chilled.

More Even
and Faster Cooling

Multi Air Flow

Experience consistent cooling throughout the LG Bottom Freezer Refrigerator with multiple cooling air vents that distribute cold air evenly to every corner. Enjoy peace of mind knowing all your food items are properly chilled, maintaining freshness for longer.

Metal Fresh

The interiors of the LG Bottom Freezer Refrigerator are designed as elegantly as its exteriors. Its Metal Fresh panels reflect modern elegance in every detail, while retaining cooling for long hours. Truly, the best of form and functionality!

Fresh Balancer

Don't you hate it when your fruits get mushy? With the LG Bottom Freezer Refrigerator that's no longer a problem! The Fresh Balancer in the fruit basket keeps your fruits fresh for longer letting you enjoy healthy snacking every day...so no more tossing out soggy strawberries.

Convenience

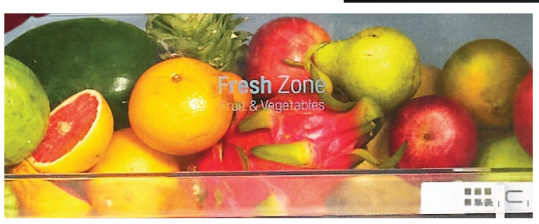

Bigger Vegetable Basket

Love grocery shopping but hold back every week because of storage struggle? You can now shop more and store more easily with the extra-large Vegetable Basket designed for bigger storage needs. Keep your vegetables fresh and crisp for longer and enjoy eating healthy every day!

Additional Fruit Basket

Don't like storing your fruits with your vegetables in one basket? It's no longer a problem with LG Bottom Freezer Refrigerator's Fruit Basket. Thoughtfully designed, it ensures your fruits stay fresh for longer and healthy snacking becomes more accessible!

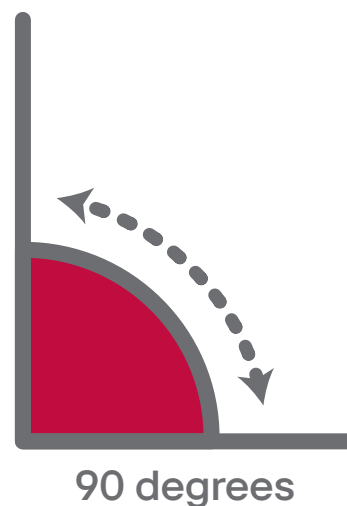

Bottle Rack

Now store your favorite bottles in this spacious easy access rack that keeps your favorite beverages at the ideal temperature for a perfect pour every time.

Better Access To Drawers

Hate it when you're pulling out the vegetable basket and it hits the fridge door? Then you'll love the smooth drawer operation in the LG Bottom Freezer Refrigerator. Even if the door is only open at 90 degrees you can still pull out the drawers smoothly.

LG Bottom Freezer Refrigerator

Digital Panel

Easily change the temperature of your refrigerator from the Digital Panel at the top and keep your food fresh.

Don't let cool air slip away when you change your refrigerator's temperature. Make it easy as can be with a click on the Digital Panel of the LG Bottom Freezer Refrigerator!

Energy Efficiency

Smart Inverter Compressor

Not just easy access, the LG Bottom Freezer Refrigerator also gives you lower electricity bills with its Smart Inverter Compressor. It optimizes energy usage by adjusting cooling power based on the amount of food stored along with the internal and external temperature.
