* Camera mirror mode is only available for certain apps.
* All images in this datasheet are for illustrative purposes only.

Screen Rotation and Adjustable Height

The One:Quick Flex supports screen rotation when using the dedicated stand, which can be widely used by being turned vertically or horizontally according to the content ratio. Moreover, the height of the stand can be adjusted to meet the posture or height of the user.

- * To use it vertically, users can rotate counter clockwise, and vice versa to switch back to landscape mode.
- * Some apps may not support vertical view mode.

Landscape > Portrait
(Counter Clockwise)

Portrait > Landscape
(Clockwise)

Intuitive UX and Excellent Expandability

The touch-based UX of One:Quick Flex is designed to be similar to the mobile touch UX, making it easy to use. Also, the operating system based on Windows makes it easy for the user to install and run programs they want through a huge library of applications and tools.

A Sleek Design that Blends with the Space

Moving beyond the conventional black color, it is available in stylish beige with a smooth finish and blends effortlessly with the surrounding interior.

All-in-One Display for Simple and Quick Video Call

With LG One:Quick Flex's 43 all-in-one display complete with built-in camera, microphones and speakers there's no need to stress over online meetings and calls and no more inconvenience of connecting to and setting up video conferencing.

Effective Collaboration with Touch and Drawing

Equipped with In-Cell touch technology, the One:Quick Flex turns ideas into reality. With the dedicated Touch Pen, taking notes and drawing are done easily. Also, these works can be saved as files, and easily shared via Smartphone.

* One touch pen provided.

* Dedicated apps required for annotation and drawing (MS Whiteboard ready)

Easy Transport with a Movable Stand

The One:Quick Flex can be used anywhere indoors where it can be moved by wheels. From a private office to a public lounge, it plays various roles according to each need such as video conferencing, design demo, collaboration, etc.

* The product needs to be plugged into the appropriate power source to operate.
