2Q' FY26 Performance

- **Revenue :** The segment continued to reinforce its leadership in Q2FY26, gaining market share across key categories. While the GST rate change temporarily influenced purchase timing, our strong brand equity and channel resilience helped to strengthen premium market share. In particular, our side-by-side refrigerator market share increased to 43.2%(4.5%↑) underscoring our leadership in the premium cooling segment.
- **Profit :** Margins were tested by elevated commodity prices and higher recycling costs linked to compliance. Incremental festive Go-to-Market investments also added pressure as we prioritized consumer engagement & retail push.

Q3' FY26 Outlook

- **Market :** The industry anticipates sustained demand in upcoming quarter, driven by the recent GST rate cut, festive & wedding season tailwinds unlocking momentum across categories, with premium appliances leading the recovery.
- **LGEIL :** With our two-track strategy, we're widening the price spectrum through LG Essential and a new premium range targeting niche demand and unlocking growth in underpenetrated markets.

- **Profit :** EBIT margins impacted due to elevated commodity prices, Go-to-Market investments.

Q3' FY26 Outlook

- **Market :** The Indian TV industry is growing steadily, supported by festive demand, GST rate cuts and rising interest in smart technologies. Consumer sentiment has improved with larger screen sizes emerging as a key upgrade driver.
