### HOSPITALITY FEATURE

#### Lock Mode

---

Lock Mode blocks external input signals with non-compliant content. This is a useful feature for preventing misuse of TVs in public spaces.

#### External Speaker Out

---

Enhance the entertainment experience with an additional speaker (sold separately). Guests can listen to the TV audio from other rooms within their suite, not only the room where the TV is located.

### SIMPLE & EASY MANAGEMENT

#### USB Data Cloning

USB data cloning makes managing multiple displays more efficient for optimal operation. No need to set up each display one by one, data can be copied to a USB in one display, data will be distributed to other displays through a USB plug-in.

#### IR Out

Using the interactive set-top-box, all LG TVs can be controlled with a single remote.

#### Multi IR

Multi-code IR function eliminates any remote control signal interference between TVs in rooms with multiple TVs installed.

\* Only available for LG TV models

### SIMPLE & EASY MANAGEMENT

#### USB Auto Playback

Create and play personalized media playlists (video, music, images) without a PC or installation.

#### Remote Diagnostics

The TV stores diagnostic data, which can be saved to a USB memory device, thus enabling service engineers to analyze the data and identify technical issues quickly and easily.

#### Welcome Video / Screen

Display a warm greeting message with your hotel name and logo on the TV when it is turned on. The welcome screen provides an inviting, personalized experience for your guests.
