

Essential Commercial TV with Multiple Use

LG Commercial Lite TVs are designed specifically for hospitality and business environments. With the use of simple user-friendly interfaces and superb images and video, the LV340C facilitates communications between businesses and their target audiences. Also, the LV340C series supports WOL (Wake on LAN) and SNMP (Simple Network Management Protocol) helping IT managers remotely control TVs so improving ease-of-use.

LV340C

- Welcome Screen/Video
- USB Cloning
- ^{NEW} WOL (Wake on LAN) & SNMP
- USB Auto Playback +
- Time scheduler
- ^{NEW} Compatibility with AV Control System*

screen size

32", 43"

*Available AV control systems may differ by regions. Please check it with regional sales.

**Front color may differ by its inches.

Key Features

WOL (Wake on LAN)

WOL (Wake on LAN) helps you remotely turn on TVs over the internet. Connect TVs and a PC in the same network, and send Magic Packet program to the MAC addresses of registered TVs. Then, it will wake up the TVs via LAN port.

SNMP

SNMP (Simple Network Management Protocol) ensures convenient network management for SI and business managers.

USB Auto Playback+

Create and sequentially play playlists composed of informative media(video, music and image) you choose without PC and any installation.

Simple & Effective Maintenance

Hotel Mode

From channel selection to volume setting, you can control the TV settings in all the rooms with Hotel Mode. Prevent misuse by customers, set volume limits, or reset settings to default for any TV. You are in control of it all.

Lock Mode

The Lock Mode blocks external input signals with non-compliant content. A useful feature for preventing misuse of TVs in various facilities or public spaces.

USB Cloning

Clone all commercial TVs with astonishing speed and ease. The USB Cloning feature allows you to simply copy the TV settings to all TVs using a USB memory device.

Self Diagnostics (USB)

Enables service engineers to recognize technical issues in a TV quickly and easily through a USB. The TV stores any technical issues encountered and can output them to a USB device. Service engineers use this information to analyze technical issues without the actual TV.

Entertainment & Convenience

Welcome Screen/Video

With the capability to display repeatedly various video formats as well as images, Commercial Lite TVs allow for a greater variation of greeting messages in hotel rooms which make customers feel more welcome and cared for.

Time Scheduler

Create your own time scheduler of your Commercial TV. Once you set opening/closing hours and holidays, the TV will turn on/off according to work schedule.

IR OUT

Just connect your interactive set-top-box to LG Commercial TV. With a single remote control, the LG TVs in your hotel solution fall under your control.

Specifications

LV340C (SCA ISDB-T)
