### LG COMMERCIAL TV

# **Optimized Features for Commercial Use**

#### Public Display Mode

LN549C LED

From channel selection to energy-saving features, you can control the TV settings in your business area from the center with Public Display Mode. Prevent misuse by customers, set volume limits, or reset to default settings for any TV. You are in control of it all.

The Lock Mode blocks external input signals for illegal communication, a useful feature for preventing misuse of TVs in public spaces.

Your ordinary USB can be the perfect device for cloning all TV

Signage with astonishing speed and ease. The USB Cloning feature allows you to simply copy the TV settings to all TVs using a USB stick, a process that is fully automated to save a lot of time without having to set each TV one by one.

Firmware Update .TV Setting Cloning

#### CG Hotel Welcome Screen

Having a warm greeting message with your business area name and its logo on the TV when they enter the space will let them feel more welcome and cared for.

## LG COMMERCIAL TV

#### One Channel Map

You no longer need to bother managing channel listings for each different signal. The one channel mapping feature allows users to edit and list the channels of their choice from any of the multiple broadcasting signals (DVB-T/C, analog or radio).

#### Multi IR

You can control a designated TV exclusively with the LG Multi IR remote control unit. In areas where there are multiple TVs installed, such as in large lobbies, sports pubs, each remote can be assigned to each TV with no signal interference from other remotes. Up to nine TV can use this function simultaneously.

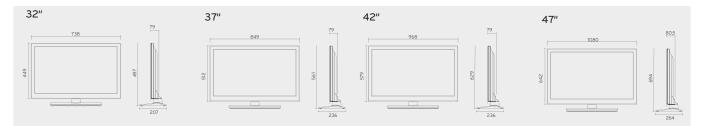

With RS232C port, you can remotely manage controlling multiple TV's power and volume simultaneously.

# **Specifications**

Ci	2011/2211/42511/4251
Size	32"/37"/42F"/47F"
Resolution	32"/37" : 1366 x 768 (HD) 42F"/47F" : 1920 x 1080 (FHD)
