

Ultra Stretch commercial display

Expand your visual display opportunities

Stretch your imagination

With an amazing span of 86"-88" s, LG's ultra-stretch displays are something to feast your eyes on. Designed for the most unique placement requirements they can be positioned in portrait or landscape modes.

With ultra wide aspect ratios, commercially the Ultra Stretch display presents multiple opportunities with 4 picture in picture mode to present up to 4 distinct video feeds for multiple information presentation.

Stylish and easy to use, the single screen device will enhance any environment with its good looks and dynamic picture delivery. Perfect for a retail environment as well as transport hub, hospitality greeting area, reception or high footfall information delivery point.

Further the Ultra Stretch can be mixed and matched with other display solutions to deliver a larger visual solution as your needs require.

Using the LG Ultra Stretch is simple, with open architecture access or control via the LG off the shelf software. Resolution is also assured with Ultra HD content delivery for crisp performance and perfect picture clarity.

Open up a whole new world of imaging opportunities and maximize your revenue at the same time. The result will not only look good but will assure you of a low touch, simple, single source cost effective presentation tool.

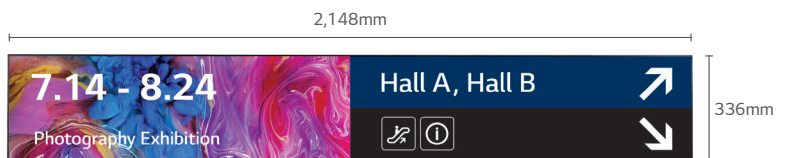

Stretch your imagination and see the future of digital presentation and communication.

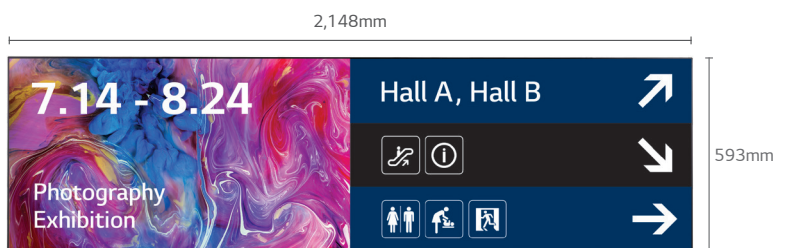

Flexible Messaging Formats

Whether it's the 86" or 88" model our high resolution large screens offer extreme flexibility to deliver the most effective messaging platform for all your needs.
