Life’s Good when you get healthy surprises.

Presenting the stylish LG Side-by-Side Refrigerator with HEALTH GUARD™
ENJOY THE GLOW OF GOOD HEALTH

Presenting HEALTH GUARD™ in the new range of LG Side-by-Side Refrigerators with Wonder Door.

Innovative design meets cutting edge technology. Presenting the new range of LG Side-by-Side Refrigerators with HEALTH GUARD™. The unique 4-Step Air Purification system HEALTH GUARD™, uses four special filters, one each for dust, fungi spore, bacteria and odour to circulate only clean, healthy air inside the refrigerator. Thus sterilising the interior up to 99.99%* and providing a nature-like environment. This revolutionary technology ensures that food stays healthy for long and tastes natural.

That’s not all. Add to this is the style and convenience of the Wonder Door, which gives you access to your favourite food without opening the refrigerator door.

Bring home an LG Side-by-Side Refrigerator today and enjoy the healthy surprises.

*99.99%: Bacteria tested by Intertek, 2010 & Kitasato, 2011, ASTM E2149-10 test protocol
Eliminates 4 most common known disease spreading bacteria in the world.
PRESENTING HEALTH GUARD™

A healthy life for you and your family is what you want. The air you breathe is pure and the water you consume is fresh. Then why compromise on your food? Is it stored in a healthy and hygienic way? Is it always naturally fresh?

LG presents HEALTH GUARD™. It retains the freshness and nutritional value of the food by keeping it in a hygienic condition so you can enjoy it the way nature intended. Its 4-Step Air Purifying System actively ventilates the interior and sterilizes up to 99.99%* of bacteria. This latest innovation from LG optimizes the refrigerator’s performance:

HOW DOES HEALTH GUARD™ WORK?

Step 1: Dust filter
Step 2: Fungus spore filter
Step 3: Bacteria filter
Step 4: Deodorizing filter
Pure Air

HOW DOES HEALTH GUARD™ PROTECT YOU FROM 4 HARMFUL BACTERIA?
HEALTH GUARD™ is coated with LG patent material®, which is certified to eliminate 4 types of bacteria commonly found in a refrigerator:

- **Staphylococcus aureus**
  - Causes food poisoning and sepsis

- **Listeria monocytogenes**
  - Direct cause for food poisoning

- **Salmonella typhimurium**
  - Direct cause for food poisoning

- **Escherichia coli**
  - Causes diarrhea and colitis

GET ONE-TOUCH AIR PURIFICATION WITH HEALTH GUARD™

You can control the freshness inside the refrigerator at the touch of a button. It removes bad air from the refrigerator and creates a fresh natural environment inside, ideal for storing food:

- **Auto**: Works for 10 minutes, off for 60 minutes and responds against bad air
- **Power**: Heats for 15 min, 15 min cooling, 60 min cooling

**CT1789: Lactic Acid Ferment Extract**

= CT1789: Lactic Acid Ferment Extract

TOUCH OPEN
A WORLD FULL OF HEALTHY SURPRISES.

The revolutionary Wonder Door from LG makes a grand style statement, and makes your life easy by providing easy access to your favourite food, drinks and snacks. It not only prevents cooling loss caused by the constant opening and closing of the main doors, but also saves energy and gives you 2.5* times more storage space. Delight yourself with this wonder.

EASY ACCESS
Grab frequently accessed food, drinks and snacks more conveniently.

ENERGY SAVING
Helps you save up to 16% energy by decreasing the frequency of opening and closing of the main refrigerator door.

STYLISH DESIGNS
Minimal seamless design for perfection and simplicity.

EXTRA STORAGE
Enjoy different ways to store your food with 2.5* times more storage space.

*Under test conducted at LG in house laboratory
YEARS OF PEACE OF MIND.

The advanced Inverter Linear Compressor is the heart of LG Side-by-Side Refrigerators. This innovative compressor not only consumes less energy but also makes less noise and vibration, thereby keeping you at peace and preserving the planet. That’s not all, the outstanding technology minimises fluctuation and maintains an optimised temperature for freshness. Based on strong confidence of its durability, LG provides a 10 year warranty on its patented technology. Just another endeavour from LG to ensure a healthy living just for you.

DURABILITY
LG’s Inverter Linear Compressor is backed up with a 10 year warranty.

LESS NOISE
Conventional compressors have four friction points which make a lot of noise. Soft start and soft stop of the superior Inverter Linear Compressor makes less vibration and noise.

OPTIMUM FRESHNESS
You can preserve natural freshness because of Inverter Linear Compressor. This technology maintains optimum temperature inside the refrigerator by sensing outside temperature and adjusting operation rate. It not only keeps your food fresh for long but also prevents energy loss.

ENERGY SAVING
The Inverter Linear Compressor which is the core technology of LG Electronics, enables 26% more efficiency in energy saving than A-rated ones, with lowest noise by having one friction point driving the piston.

ECO FRIENDLY
The mechanism of LG Inverter Linear Compressor actually reduces 63kg CO₂ emission per year. It has the same effect as planting 16 new pine trees.

7 REASONS TO CHOOSE LG SIDE-BY-SIDE REFRIGERATOR

It’s not every day that you come across something that inspires you. LG Side-by-Side Refrigerators are a unique combination of technological expertise and elegant looks that captivate your senses. So that you feel more. Live more.

HEALTH GUARD™
It’s a 4-Step Air Purifying System that preserves the freshness and nutritional value of the stored food items. It sterilises the interior and eliminates up to 99.999%* of bacteria. The new refrigerator is equipped with a range of cooling solutions that optimises the refrigerator’s performance.

WONDER DOOR
India’s first Wonder Door is here to offer you a more convenient life. Touch it once to open the doorway to delicacies in your refrigerator. Get access to frequently used food, drinks and snacks stored in this special section. By preventing cooling loss caused by the constant closing and opening of the main doors in those scorching hot summer days, it saves energy and gives you 2.5 times more storage space. What’s more, the minimal seamless design enhances the refrigerator’s beauty and style.

INVERTER LINEAR COMPRESSOR
The advanced compressor functions in the most silent way. It is also low on power but high on efficiency. And comes with a 10 year warranty.

Green Ion Door Cooling
GIDC is LG’s innovative cooling system that cares for your health. It uses Green Tea Leaf Extracts to prevent bacteria and odour that keep food healthy and nutritious for longer. The unique door cooling technology is a three way cooling that maintains uniform cooling throughout the refrigerator.

MULTI DIGITAL SENSORS
These multi sensors monitor and respond to warm food by opening doors instantly, so as to keep the interior temperature constant.

MIRACLE ZONE™
The Miracle Zone helps you select the ideal refrigeration setting for each product, from fruits to meat, as different food items require different temperatures for storage.

MOIST BALANCE CRISPER™
The special lattice-type box cover maintains optimum moisture level as it traps condensed moisture that evaporates from stored food.

Features are model specific.

*Under test conducted at LG’s in house laboratory

*99.999%: Bacteria tested by Intertek, 2010 & Kitasato, 2011, ASTM E2149-10 Test Procedure

Eliminates 4 most common known disease spreading bacteria in the world.
SAVE COOLING SYSTEM

LG’s unparalleled Save Cooling System ensures that your food stays just as fresh as you would like it to be. By allocating an independent evaporator for each compartment, this unique system guarantees that there is no mixing of food smell. The separate cooling cycles eliminate any unnecessary energy consumption while maintaining a precise temperature in refrigerator compartments. Also, the intelligent technology preserves 66.3% relative humidity so that the food items remain as wholesome as they are in the lap of nature.

Green Ion Door Cooling

LG’s unique Green Ion Door Cooling technology takes LG Refrigerators to the next and unmatched level in cooling technology. Green ions fight bacteria, eliminate bad odour and slow the decaying of food. Door Cooling™ maintains uniform temperature through various ducts present throughout the refrigerator. So, you get pure and fresh air, which preserves nutrition and keeps your food fresh for long.

DOOR MOUNTED ICE MAKER & XTRASPACE

Since the upper door basket in the freezer is less useful for storing food, the ice maker is moved to the freezer door. LG’s XtraSpace Icer is the first ‘True’ door-mounted ice making system.

- Usable space in the freezer increased by 10%
- Easy to check for the amount of ice left
- Removable ice bucket makes it easy to clean
- XtraSpace, separate storage spaces, makes it easy to organise and prevents mixing of various odours

MULTI DIGITAL SENSORS

Digital sensors monitor and respond to warm food and open doors instantly maintaining optimum interior temperature.

- **A**: Room temperature sensor
- **B**: Ice making sensor
- **C**: Freezer sensor
- **D**: Defrosting sensor
- **E**: Refrigerator sensor
- **F**: Refrigerator sensor
- **G**: Miracle zone sensor
- **H**: Water temperature sensor

IN-DOOR WATER TANK

The water tank is neatly stored inside the freezer door.

ICE BEAM DOOR COOLING

Ice Beam Door Cooling, one of the many technological marvels from LG, facilitates uniform cooling inside the refrigerator. Circulating air from the vents along with the back, it makes sure every corner of the refrigerator is cooled evenly. This new cooling system ensures even temperature throughout the refrigerator, maintaining a constant and optimal refrigeration level.

*Under test conducted at LG in house laboratory
Features are model specific.
Freshness that ensures a healthy living.

MIRACLE ZONE™
Different types of food benefit from being stored at different temperatures. Food goes off quickly if it is stored at an incorrect temperature. Therefore, optimum temperature is very important in order to keep food fresh for long. This feature allows you to select the ideal refrigeration setting for each product.

MOIST BALANCE™ CRISPER
This is a special lattice-type box cover which maintains moisture at an optimum level. Moisture from the stored food is evaporated and then condensed on the lattice, maintaining the correct balance in the air around the food.

biosilver™
The silver-ion coated liner protects against bacteria, fungus and yeast. The anti-microbial properties of biosilver™ have been acknowledged by several leading health authorities (FDA, EPA and SIAA).

bioshield™
The gasket is treated with an anti-microbial agent, preventing mould growth which can distort the seal.

VACUUM FRESH ZONE
Sucks out air with the press of a button to create air tight condition. This helps to keep vegetables fresh for long.

Features are model specific.
WATER & ICE DISPENSER
Make a choice between ice or water by simply pressing the button on the Soft-Touch Control Pad. And in case you want water, the LG’s tall Water Dispenser allows you to fill larger vessels. Enjoy the options at your fingertips.

HIDDEN HINGE
All of LG’s Side-by-Side Refrigerators have hidden hinges. Compare how elegant the look is next to a competitor’s design. It is this kind of detail which makes the difference.

FREEZER
Temperature adjust button for freezer compartment.

LIGHT/FILTER
Dispenser Light On/Off button. Hold the filter button for 3 seconds to reset filter replacement period.

SOFT-TOUCH CONTROLLER
Operate all functions from the easy-to-use panel on the door. The detail is clearly visible with the brand new ‘Blue LED’ display as an option.

EXPRESS FREEZER
Express freezing at your fingertips. It will be turned off automatically when the fixed time passes.

CHILD LOCK
Hold for 3 seconds to lock all buttons.

REFRIGERATOR
Temperature adjust button for fresh food.

ENERGY EFFICIENT FEATURE
The backlight in the LCD window automatically goes off when no activity is detected for 20 seconds.

DISPENSER OPTION MODE
By pressing this button, you can choose between water, crushed and cubed ice.
DOOR MOUNTED ICE MAKER
- Usable space in the freezer increased by 10%
- Easy to check for the amount of ice left
- Removable Ice Bucket

ADJUSTABLE SHELVES
The interior is thoroughly designed to offer exceptional convenience and space flexibility. These shelves fit into place for optimal storage so you won't find any dead space.

GALLON STORAGE
Unlike conventional refrigerator doors, LG’s Gallon Storage is crafted in a unique way to provide you with extra storage space.

SLIDE OUT, SPILL STOP™ SHELVES
These specially designed shelves help contain spill for easy cleaning.

FULL-WIDTH SLIDE-OUT SNACK CORNER
A handy place to store food items which are frequently used.

Features are model specific.
AMAZE YOURSELF WITH THIS NEW AND BEAUTIFUL RANGE OF WONDER DOOR REFRIGERATORS

**GR-J287PGHV**
Capacity: 800 Litres
- Wonder Door - 53 Litres
- Health Guard™
- Inverter Linear Compressor with 10 Year Warranty
- Water & Ice Dispenser
- Horizontal Grip Handle
- LED Touch Sensor Display
- Multi Digital Sensors
- Dairy Corner
- Magic Crisper
- Express Freezing
- Stylish Mulan Shine Finish

Here’s a refrigerator that can change according to your changing needs. The section below the refrigerator is a convertible box that can be used as a refrigerator or can be changed into a freezer whenever you want. Not only this, but you can also switch off a few of the sections if you don’t need. So bring home this smart wonder and experience ultimate flexibility.

LG 5 Door Refrigerator offers Smart Space Management and Energy Saving.

Use Convertible Box and Smart On/Off for Smart Space Management and Energy Saving Respectively.

- Gross Capacity: 483 Litres
- Inverter Linear Compressor with 10 Years Warranty
- Multi Air Flow Cooling
- LED Display
- Multi Digital Sensors
- Child Lock
- Open Door Alarm
- Automatic Ice Maker
- Stainless Steel Finish
- Dimensions (WxHxD, mm): 703x1850x685
