Introducing LG Puricare™ Air Purifier
Transforming the process of breathing into a more healthier and conscious practice for mankind.
The LG PuriCare Air Purifier is a revolution with its unique 360 degree purification. This distinctive feature purifies air not only from one side but thoroughly cleans air from each and every corner.

**WHAT’S UNIQUE ABOUT IT?**

- 360 degree absorption, 360 degree discharge
- Thoroughly cleans air from every corner without leaving any blind spot
- Powerful performance beyond the limits of conventional air purifiers
CLEAN BOOSTER

The innovative Clean Booster feature in LG PuriCare helps maintain a clean air flow up to 7.5m away by creating a circulating air stream. It doesn’t just pump out a fresh puff of air but also cleans contaminated places with much ease.

KEY BENEFITS

- It sends clean air upto 7.5 m away
- Unique combination of fan and air purifier
- Smart circulator rises & rotates to deliver clean air
- Cleans contaminated places 74% faster*

*Test by LG Internal Lab & KIMM (Korea Institute of Machinery and Materials). Condition: 203m³ (10.6 x 7.1 x 2.7 m), 24.7°C, products installed in the middle of space. Products: PuriCare 4055DDWP2 with clean booster mode on & off. Checked cumulative dust concentration at 1.5m height from and 7.5 away from a product during 15 mins.
LG PuriCare provides a real time reading of your indoor smell and particulate levels with its smart PM 1.0 and gas sensor that automatically sets the air flow and operation cycle.

**SMART DISPLAY**

- **PM 10** – Particulate matter less than 10 μm, fine dust
- **PM 2.5** – Particulate matter less than 2.5 μm, ultrafine dust
- **PM 1.0** – Particulate matter less than 1 μm, super ultrafine dust

The LG PuriCare Air Purifier features smart lighting, a light system that emits colours based on your pollution level letting you check your air quality even at a distance.
