

ULTRA WIDE MONITOR

EA93 29"

21:9 ULTRA WIDE SCREEN WITH ULTRA PERFORMANCE

The EA93 is nothing like what you have ever seen before. The Ultra-wide 21:9 screen will bring a true cinema experience to your desktop. With the MHL feature you can link your smartphone's display and sound to the monitor so you can enjoy movies and games from your phone onto an impressive screen with overwhelming sound. A Dual Link-up feature also allows two portable devices, like a computer, camera, phone, or Blu-ray player, to be connected to the monitor and viewed on a single screen simultaneously.

The EA93 is not just wide – it's smart too. With a single click, a 4-Screen Split feature divides the screen into four customizable segments – taking multi-tasking to a whole new level. Ultra Wide and Ultra Performance means you no longer need two monitors and you can increase your productivity and viewing pleasure on a single out-of-this-world screen.

SPECIFICATIONS
