\*Based on LG internal testing as compared to a conventional LG over-the-range microwave. Results may vary depending on food type and cooking methods.

\*\*Participating products vary. Refer to LG ThinQ® app for details.

## Two-step Opening

A child-resistant door lock with an optional two-step opening function helps prevent unwanted access and enhances safety.

## SmoothTouch® Controls

Get sleek style and easy operation with just a touch of your finger. Plus, our glass controls easily wipe clean.

## Hexagonal Stabilizer Ring

Our uniquely shaped, 6-wheeled stabilizer ring prevents items on the turntable from tipping, even when supporting heavy items.

## LED Interior Light

Bright LED lighting makes it easy to check on the progress of your food while offering greater energy efficiency than traditional lighting.

## NeoChef™ Technology

LG NeoChef™ microwaves cook, heat and defrost food more evenly than ever before with ultra-precise Smart Inverter technology.

## Sensor Cook

Our selection of Sensor Cook options automatically determines when your food is ready using humidity-sensing technology.

## Popcorn Key

Enjoy perfectly popped popcorn with a specialized option to heat one 3.5 ounce packaged microwave popcorn bag.

## Trim Kit Available

Get a built-in look for your microwave with customizable, DIY trim kits available in a variety of finishes.

## EasyClean® Interior

LG's proprietary EasyClean® interior resists stains and buildup, so you can just wipe your microwave clean with a damp cloth.

## Convection/Air Fry

LG's convection technology brings oven-style capabilities, like baking, roasting and even air frying, directly into your microwave.

## Steam Accessory

LG's Steam Cook technology ensures anything you heat up is juicy, healthy and tasty.

## ExtendaVent™

Clear the air with enhanced ventilation that extends over more of your cooktop's surface area for 2x the capture rate.\*

## LED Exterior Light

Easily light your cooking surface with a bright LED bulb featuring greater energy efficiency than traditional bulbs.

## LG ThinQ® Scan-to-Cook

Scan a barcode and the LG ThinQ® app remotely sends customized cooking instructions straight to your microwave.\*\*

## Hood and Microwave Sync

Sync your microwave with your LG smart range or cooktop via the LG ThinQ® app to automatically activate and deactivate the light and fan while cooking.
