2021 HOME APPLIANCES COLLECTION FOR EVERY HOME YOU BUILD
With new ways to control the home, a future-ready open platform, and among the most extensive range of Wi-Fi enabled appliances available, LG appliances with ThinQ® technology will change the way customers think—and the way they live.

LG Builder Has The Brands Your Buyers Want

Discover Signature Kitchen Suite, LG SIGNATURE, LG STUDIO and LG and bring your vision to life with our innovative designs for every buyer imaginable. Our product lines offer premium quality to support the full spectrum of builder needs, from starter homes, condos and apartments to high-end luxury dwellings. Welcome to LG Builder – built for better living.

1. For the high-end kitchen, this built-in line of luxury appliances is a leader in innovation and design.
2. LG’s premiere, freestanding home appliances feature exceptional innovation and design.
3. Innovative freestanding and built-in appliances that perform flawlessly, for style-conscious customers.
4. With a complete line of appliances, LG gives you performance and reliability at an affordable price.

With new ways to control the home, a future-ready open platform, and among the most extensive range of Wi-Fi enabled appliances available, LG appliances with ThinQ® technology will change the way customers think—and the way they live.
LG Builder Will Help Build Your Success

Dedicated Team
LG Builder is a special business unit of LG Electronics USA that’s dedicated to bringing LG’s world-class innovations to the residential, design and construction industry. Our nationwide team of sales managers can help you choose the right products, schedule delivery and installation and offer post-sales support.

Brand Portfolio
LG Builder offers four distinct brand portfolios that support the full spectrum of builder needs, from starter homes to custom dream homes, and everything in-between.

Model Home Program
Model homes are eligible for a discount in qualified communities. Contact your district sales manager for more information.

Personal-Use Discount
Qualifying builders and designers are eligible for a personal-use discount. Contact your district sales manager for more information.

Logistics
Count on fast and reliable delivery. LG Builder will get you what you need, when you need it.

Digital Assets
From spec sheets to images to owner’s manuals, LG Builder has the assets you need. Contact your sales representative for details, or visit LGBuilderMarketing.com.

Consumer Rebates
All active rebate information and forms can be found at LG rebate center.

Customer Support / Product Service Support Team

- 2020 Beautiful Kitchen & Baths: Most Innovative Products

LG is America’s Most Reliable Line of Home Appliances
According to a 2021 Leading Consumer Testing Organization
**InstaView® Door-in-Door®**

Bringing innovation and distinctive design together, LG’s new refrigerator with InstaView® Door-in-Door® will enhance even the most beautifully crafted kitchen. The sleek tinted glass panel illuminates with two quick knocks, allowing you to see inside the easy access compartment without ever opening the door, reducing cold air loss to help keep food fresher longer. When you need to access your most often-used items, the Door-in-Door® with ColdSaver™ Panel acts like a barrier keeping cold air in where it matters most—in the inside.

**Dual Ice Maker with Craft Ice™**

Dual ice makers, dispensed from the door and located in the freezer compartment, automatically produce ice so you never run out. The icemaker in the freezer makes LG’s exclusive round Craft Ice™—crafted to melt slower and chill more efficiently, while the ice maker on the door produces and dispenses traditional cubed or crushed ice. From craft cocktails and whiskey to soft drinks, lemonade, even iced coffee, give your beverages the perfect ice. Need Craft Ice™ twice as fast?* Activate Craft Ice+ in the ThinQ® app or by pressing the freezer button on the dispenser for 3 seconds.

**Door-in-Door®**

Offering quick and easy access to favorite foods, the popular Door-in-Door® design gets even better with an adjustable bin that smoothly glides up and down to fit snacks and drinks of all sizes.

**ColdSaver™ Panel**

Door-in-Door® with ColdSaver™ Panel acts like a barrier keeping cold air in where it matters most—in the inside—giving you peace of mind that food will stay fresh. It reduces cold air loss to help keep food fresher longer.

**LG ThinQ® Technology (Smart Wi-Fi Enabled)**

Receive notifications on your smartphone when the door is open or your water filter needs to be replaced. Diagnose issues and get quick, expert advice. From making extra ice for tonight’s dinner party while you’re at work to adjusting temperatures with simple voice commands, LG refrigerators with ThinQ® technology make life easier.

---

*Shape and clarity of ice may vary with settings, water supply and home use conditions.*
REFRIGERATION FEATURES

Full-Convert™ Drawer
This flexible drawer gives you more capacity when you need it, with the ability to fully convert from fridge to freezer with one quick touch so you can chill today, freeze tomorrow. Create instant space for that overzealous ice cream birthday cake using the Freeze setting. Or prep for holiday gatherings with Chilled Wine, Deli / Snacks, Cold Drinks or Meat / Seafood options. Adjustable dividers keep everything neat and organized.

3-Tier Organization™ Freezer
The 3-Tier Organization™ Freezer system can keep food organized and easily accessible. Now you can prioritize what’s in your freezer so you can find anything fast.

Glide N’ Serve™ Pantry Drawer
Located just below the humidity-controlled crispers, this full-width, temperature-controlled drawer makes party preparations a snap. Store everything from deli platters to fruit trays at just the right temperature with one press of the touch pad controls. The lid opens automatically when you slide out the drawer for fast loading and unloading.

Tall Ice & Water Dispenser® with Measured Fill
From pitchers to pint glasses, this external filtered ice & water dispenser can accommodate just about any container. The water and ice dispenser in the LG refrigerator is one of the tallest around, measuring at an ultra-accommodating 12.6 inches. The convenient Measured Fill feature lets you select the exact amount of filtered water in ounces (4, 8, 16, or 32), to save you the time and hassle of measuring for drinks, mixes, and more. Plus, the brushed metal finish touch display includes the easy-to-operate temperature controls and refrigerator options.

Slim SpacePlus® Ice System
Ice makers are great, but not if it means you can’t fit all of your food in the fridge. The Slim SpacePlus® Ice System provides the most shelf space* and allows even more space for door bins. It’s not just capacity, it’s more usable capacity thanks to features like the Hidden Water Filter and Slim SpacePlus® ice system that free up valuable shelf space.

Smart Cooling Plus® System
Smart Cooling Plus® technology is designed to maintain superior conditions within the refrigerator. The Linear Compressor and Dual Evaporators react quickly to humidity and temperature levels and help keep your food fresher, longer. Meanwhile, strategically placed vents in every section help to surround your food with cool, fresh air no matter where you put it.

Multi-Air Flow Freshness System
Multi-Air Flow System is designed to maintain superior humidity and temperature levels to help keep your food fresher, longer. Digital sensors constantly monitor conditions within the refrigerator and strategically placed vents in every section to help surround your food with cool air no matter where you put it.

Fresh Air Filter
Your food isn’t the only thing that stays fresh. Only LG offers a premium Fresh Air Filter with dedicated fan that pushes cleaner, fresher air into the fridge.

Door Cooling+
Located in the top of the fresh food section, the Door Cooling+ vent extends the reach of LG’s Smart Cooling® system. Blasts of cool air reach all areas of the refrigerator—including the door—to help maintain consistent temperatures from top to bottom. It helps keep all foods fresh and flavorful and keeps produce fresh up to 2X longer.*

CoolGuard™
CoolGuard™ metal interior panel adds a premium look.

10-Year Manufacturer’s Limited Warranty on Inverter Linear Compressor
When you buy a refrigerator, you don’t want to worry that it won’t last. Because the Inverter Linear Compressor motor uses fewer moving parts and operates more efficiently, LG confidently backs the motor with a 10-year limited warranty.

LED Lighting
LED panels and strips in provide an exceptionally bright interior and saves energy over traditional lighting.

*than other LG models. Based on LG internal tests between LFXS30796D and LRFDS3006S and in combination with Linear Cooling and Smart Cooling technologies.

• Door-in-Door® with ColdSaver™ Panel
• Smart Cooling® System
• Multi-Air Flow™ Cooling
• Integrated Ice & Water Dispenser
• SpacePlus® Ice System
• LoDecibel™ Quiet Operation
• SmartDiagnosis™
  • LSXS26366S – Stainless Steel
  • LSXS26366D – PrintProof™ Black Stainless Steel

Transitioning to LRDS2706S/D Q3 2021; Available in limited quantities, contact your LG Sales Rep for details

LSXS26326S
26.2 cu. ft. Side-by-Side Refrigerator (36” Wide)
• 26.2 cu. ft. Capacity
• Smart Cooling® System
• Multi-Air Flow™ Cooling
• LED Lighting
• Integrated Ice & Water Dispenser
• SpacePlus® Ice System
• LoDecibel™ Quiet Operation
• SmartDiagnosis™
  • LSXS26326S – Stainless Steel

Transitioning to LRXS2706S/V/B/W Q3 2021; Available in limited quantities, contact your LG Sales Rep for details

LSXS26396S
26.1 cu. ft. InstaView® Door-in-Door® Side-by-Side Refrigerator (36” Wide)
• 26.1 cu. ft. Capacity
• InstaView® Door-in-Door®
• Multi-Air Flow™ Cooling
• Premium LED Lighting
• Fresh Air Filter
• Integrated Ice & Water Dispenser
• SpacePlus® Ice System
• LoDecibel™ Quiet Operation
• LG ThinQ® Technology (Wi-Fi)
  • LSXS26396S – Stainless Look

Transitioning to LRDS2706S/D Q3 2021; Available in limited quantities, contact your LG Sales Rep for details

LSXS26396S
26.1 cu. ft. InstaView® Door-in-Door® Side-by-Side Refrigerator (36” Wide)
• 26.1 cu. ft. Capacity

**TOP FREEZER REFRIGERATORS**

**LRTLS2403S**
23.8 cu. ft. Top Freezer Refrigerator
- 23.8 cu. ft. Capacity
- Internal Water Dispenser
- Filtered Water
- Optional Ice Maker – LKITC6
  ● LRTLS2403S – Stainless Steel

**LTWS24223S**
23.8 cu. ft. Top Freezer Refrigerator (33” Wide)
- 23.8 cu. ft. Capacity
- Internal Water Dispenser
- Filtered Water
- Factory Installed Ice Maker
- Full Width Pantry Drawer
  ● LTWS24223S – Stainless Steel

**LTCS20030S**
20.2 cu. ft. Top Freezer Refrigerator (30” Wide)
- 20.2 cu. ft. Capacity
- Reversible Door
- Factory Installed Ice Maker
  ● LTCS20030S – Stainless Steel

**LTNC11131V**
11 cu. ft. Top Freezer Refrigerator (24” Wide)
- 11 cu. ft. Capacity
- LoDecibel™ Quiet Operation
- LED Lighting
  ● LTNC11131V – Stainless Look

**End-of-Life Q3 2021; Available in limited quantities, contact your LG Sales Rep for details**

---

**REFRIGERATION**

**LTCS20020L**
20.2 cu. ft. Top Freezer Refrigerator (30” Wide)
- 20.2 cu. ft. Capacity
- Reversible Door
- Optional Ice Maker LKITC6
  ● LTCS20020L – Stainless Steel
  ● LTCS20020LW – Smooth White
  ● LTCS20020LB – Smooth Black

---

**DISHWASHERS**

**LTWS24223**
23.8 cu. ft. Top Freezer Refrigerator (33” Wide)
- 23.8 cu. ft. (33” Wide)
- Factory Installed Ice Maker
- Full Width Pantry Drawer
- LED Lighting
  ● LTCS24223S – Stainless Steel
  ● LTCS24223W – Smooth White

SPECIALTY REFRIGERATORS

LRONC0705V
6.89 cu. ft. Single Door Refrigerator (21” Wide)
- 6.9 cu. ft. Capacity
- Easy-Access Organization
- Extra Large Produce Bin
- Semi-Auto Defrost
- Curved Pocket Handle
@LRONC0705V – Stainless Look

LRDFC0605V
5.8 cu. ft. Single Door Freezer Refrigerator (21” Wide)
- 5.8 cu. ft. capacity
- Easy-Reach Organization
- Direct Cooling System
- Curved Pocket Handle
@LRDFC0605V – Stainless Look

LRKNS1400V
14.3 cu. ft. Specialty Refrigerator (30” Wide)
- 14.3 cu. ft. Capacity
- Cooling Care System with Freshness Guard Covers
- Multi Storage Mode (left and right compartments refrigerate fresh food or store kimchi)
- 2 CustomChill™ Drawers with Convertible Temperature Zones
- 14 Storage Bins
- LED Lighting
- LG ThinQ® Technology (Wi-Fi)
@LRKNS1400V – Platinum Silver

LRKNS1205V
11.7 cu. ft. Specialty Refrigerator / Freezer (27” Wide)
- 11.7 cu. ft. Capacity
- Freezer / Fridge Convertible
- Cooling Care System with Freshness Guard Covers
- Multi Storage Mode (top compartment refrigerates fresh food, freezes food, or stores kimchi)
- 2 CustomChill™ Drawers with Convertible Temperature Zones
- 10 Storage Bins
- LED Lighting
- SmartDiagnosis™
@LRKNS1205V – Platinum Silver

LRKNC0505V
4.5 cu. ft. Specialty Refrigerator / Freezer (27” Wide)
- 4.5 cu. ft. Capacity
- Freezer / Fridge Convertible
- Cooling Care System with Freshness Guard Cover
- 6 Storage Bins
- SmartDiagnosis™

Dishwashers

TrueSteam® with Sanitization
LG TrueSteam® uses the power of steam to penetrate food residue and help eliminate water spots by up to 60%*. Plus, LG dishwashers are certified by the National Sanitization Foundation to reduce bacteria on dishes by 99.9999% and reach a final rinse temperature greater than 150°F when operated on the Steam cycle** for peace of mind.

Dynamic Dry™
Creating a dynamic table begins with sparkling dishes and glassware—the kind only Dynamic Dry™ enhanced with TrueSteam® can deliver. From thoroughly drying to eliminating water spots from wine glasses, you can throw in the towel and stop drying by hand.

QuadWash™
Achieve maximum cleaning throughout the entire cycle with LG QuadWash™. With four spray arms instead of two, QuadWash™ also includes Multi-Motion arms that rotate back and forth while spinning. The high pressure jets power-clean dishes from multiple angles.

Height Adjustable 3rd Rack
The convenient 3rd rack holds more items so you can save time and wash fewer loads. From flatware to long-handled utensils to small espresso cups, items that may otherwise need to be washed by hand finally have their place in the dishwasher. Use the handy slider to adjust the 3rd rack height—even when fully loaded—to make room for taller items at the last minute.

*Percent in water spot reduction compared to comparable LG non-steam dishwashers on delicate wash cycle. Results may vary by model. Results based on test with LG LDF7774ST as of Feb. 2018.

**LG TrueSteam Dishwashers certified by NSF achieve a minimum 99.999 percent reduction of bacteria when operated on the Steam cycle.
DISHWASHER FEATURES

Smooth Gliding Racks

Why waste time fighting a dishwasher rack that goes off track, especially when you’re in a hurry? Even your heaviest dish loads glide in and out smoothly with the help of LG’s Glide Rail and Ball Bearing Wheel design. The Glide Rail keeps the upper rack on track while the Ball-bearing wheel provides a smooth lower rack glide for easier loading and unloading.

EasyRack™ Plus

EasyRack™ Plus lets you fit more dishes, run fewer loads and make short work of after-dinner cleanup. With three height settings, the upper rack adjusts effortlessly and smoothly to make room for tall stemware on top or oversized pans below. Customizable tines offer greater flexibility for loading dishes of all shapes and sizes without compromising cleaning performance.

Advanced Filtration System

LG’s advanced filtration system is tough on food residue and dirty dishes even if you don’t pre-wash. Plus its advanced design makes it extremely efficient and quiet.

Quiet Operation

LG’s technological advances, like the Inverter Direct Drive motor and the advanced 3-stage filtration system, were designed with quiet in mind.

LG ThinQ® Technology (Smart Wi-Fi Enabled)

LG smart dishwashers come with ThinQ® technology built-in so you can get smartphone notifications when a cycle is complete. You can even check on the cycle status with voice commands using the Google Assistant and Amazon Alexa, so you don’t have to lift a finger.

COOKING FEATURES

Slide-in Design
With a depth that lines up with standard kitchen countertops, LG Electric and Gas Slide-in Ranges offer a streamlined custom appearance that enhances every kitchen décor and makes cooking a pleasure.

Double Oven Ranges
Our 7.3 cu. ft. electric ranges and 6.9 cu. ft. gas ranges have the largest capacity oven in their class*. So you can use all the pots, pans, dutch ovens, skillets you need to get your cook on. Whether you’re baking large batches of cookies or a roast for the holidays, this oven can fit it all.

InstaView® Window
Now you can check on food in an instant with two quick knocks. The LG InstaView® window lets you see inside your oven without ever opening the door or reaching over a hot cooktop to flip a switch. That means everyone in the family can quickly and safely keep an eye on what’s cooking.

Built-in Air Fry
Air Fry delivers crispy flavor fast with no preheating and makes enough to feed a crowd, with no need to buy yet another gadget that takes up counter space. Just press Air Fry to prepare favorite snacks like French Fries, hot wings and more. High temperatures and the convection fan work together to deliver the flavor and crunch you crave without the oil—or the guilt.

Air Sous Vide
Seal in restaurant-quality results with LG Air Sous Vide. Using precise, low oven temperatures and air flow around vacuum sealed ingredients, Air Sous Vide consistently delivers tender and juicy meats, fish and poultry that are cooked to perfection.

*Based on LG internal survey (October 2018) for 6.3 traditional self clean gas & electric single ovens, 6.9 gas double ovens and 7.3 electric double ovens.
COOKING FEATURES

ProBake Convection®
Tired of being burned by inconsistent baking results? Not anymore—LG ProBake Convection® Ranges offer the gold standard in convection technology delivering even baking results on every rack, every time*. Inspired by pro-style ranges, the heating element moved from the bottom of the oven to the back wall for optimal heat distribution. Enjoy consistent browning on top and bottom—with every cookie baked to perfection.

Infrared Heating® System
When you’re craving the thrill of the grill but Mother Nature has other ideas, you can still achieve that characteristic seared flavor with LG’s Infrared Heating® System. The infrared heating element locks in juices while cutting up to 20% off of your cooking time**—with no preheating required.

EasyClean®
LG EasyClean®, the only 10 minute oven cleaning cycle technology, brings you the fastest oven-cleaning feature yet. In three easy steps and 10 quick minutes, your oven can be sparkling clean, without strong chemical fumes or high heat†.

Gliding Rack
LG’s gliding rack brings the dish to you, extending your reach with far less effort. It offers easy access for checking on or taking out your favorite dishes from the oven.

LG ThinQ® Technology (Smart Wi-Fi Enabled)
Begin preheating the oven from the office and get a jump-start on that perfectly planned meal. Designed with the connected home in mind, you can even activate the timer with a simple voice command, since LG SmartThinQ® technology works with Google Assistant and Amazon Alexa.

UltraHeat™ Power Burners
Busy cooks, rejoice: LG UltraHeat™ burners deliver every bit of the precision you love about gas with even more power. No more waiting around to bring water and other liquids to a boil.

3-in-1 Design, Unlimited Flexibility
No matter what’s on the menu, the LG 3-in-1 element is up for the challenge. Go from 12” to 9” to 6” with just a turn, for the flexibility to cook a huge pot of chili or simmer a small pan of sauce in the same spot, without having to move pans around.

Induction Cooktop Elements
Induction elements offer speed heating, precision and responsiveness for super-fast water boils and outstanding, scorch-free simmering the chef in you will love.

Wok Grate
Master the art of the wok with LG’s Detachable Wok Grate. Designed to lift a wok pan above the right front burner, the steady surface combined with the intense heat of the 18,500 / 20,000 BTU UltraHeat™ burner makes it easier to stir fry, steam, poach and sear. Crafted from cast iron porcelain for years of use.

Griddle
Select ranges are offered with a free griddle pan that fits perfectly on the oval burner. You can start cooking right away—pancakes, eggs, meat, and everything else that can be cooked on a griddle.

*Compared to LG’s conventional ovens. Among major leading appliance brands as surveyed in June 2017. Heavy build-up may require additional manual effort or use of the full self-clean feature.
**Compared to LG’s non-infrared heating ovens using chicken breasts, hamburgers, and salmon.
†Among major leading appliance brands as surveyed in June 2017.
**Compared to LG’s conventional ovens using chicken breasts, hamburgers, and salmon.

LAUNDRY

WASHER FEATURES

**AI Fabric Sensors**
Forget about endless sorting or toggling through cycles—built-in sensors use AI technology to detect fabric texture and load size, then automatically select the right wash / dry motions, temperatures and more for advanced fabric care.

**Smart Pairing™**
With Smart Pairing™, the washer can even tell the dryer to select a compatible drying cycle, making it the ultimate laundry hack.

**TWINWash™ (Front Load Only)**
Compatible front-load washers can be combined with LG SideKick™ pedestal washer to increase capacity with the ability to wash two loads at the same time that can’t wait.

**ezDispense™ (Front Load Only)**
Why dig out detergent and fabric softener every time you do laundry, guessing at the amount or (worse) spilling when you’re in a hurry, when your LG washer will take care of it for you? With ezDispense™ Automatic Dispenser, just fill the reservoirs once and you’re set for up to 18 wash cycles.* Not only is it quick and easy, but it helps make laundry foolproof, adding just the right amount for each load size—at just the right time. You can even get an alert on your smartphone when it’s time to refill, so you never miss a beat!**

**LG ThinQ® Technology (Smart Wi-Fi Enabled)**
Get alerts on your smartphone the minute clothes are clean, and control key laundry features from anywhere, at any time. You can also start a load of wash with a simple voice command, since LG ThinQ® appliances work with the Google Assistant and Amazon Alexa.

*A based on 8-12 lb loads. Always use HE (High-Efficiency) detergent with this washer.
**Based on app pairing. Features subject to change. See lg.com for additional details and privacy information.

LGBuilder.com | Features vary by model. Refer to specifications for complete details.
TurboDrum™ Technology (Top Load Only)
TurboDrum™ Technology simulates the agitator effect of traditional top load washers. The LG Direct Drive Motor rotates independently from the tub mechanism, so they spin in different directions to create a powerful water flow for a complete but gentler clean.

TubFresh™ System (Front Load Only)
To get your clothes as clean as possible, you need the washer itself to stay clean and fresh. The TubFresh™ system includes an advanced tub-cleaning cycle, a FreshCare™ option that tumbles clothes after the cycle completes, and other innovations that help you easily maintain your washer’s freshness by cleaning and drying the wash tub, door, and gaskets.

Steam Technology
There’s no clean like a steam clean. Our steam technology gently but powerfully penetrates fabrics to virtually eliminate dirt, odors and wrinkles.

6Motion™ Technology
All laundry shouldn’t be washed the same. Based on the cycle you select, LG 6Motion™ technology uses up to 6 different wash motions, each designed to get clothes cleaner and help them last longer. Options range from a scrubbing PowerMotion that helps to dissolve stains to the gentle Swinging motion that’s ideal for delicates.

TrueBalance™ Anti-Vibration System and LoDecibel™ System
Put Peace and Quiet Back in Your Day
Run the washer whenever you want—LG’s TrueBalance™ Anti-Vibration and LoDecibel™ systems are designed for quiet operation that keeps even big loads in balance to reduce washer noise and vibration. A must-have for main-floor or second-floor laundry rooms.

LG ENERGY STAR® Certified Washers
LG ENERGY STAR® certified high efficiency washers use far less water and energy than a conventional washer for savings that add up with each load. Get additional savings with load-sensing technology that adjusts water levels and wash times or by adding the ColdWash™ option to almost any cycle.

TurboWash™ 360° Technology (Front Load Only)
Clean larger loads under 30 minutes*, while enjoying the same great washing performance you expect from LG. With five powerful jets that surround your clothes from every angle, penetrating deep into fabrics, for a more complete clean.

TurboWash™ 3D Technology (Top Load Only)
A complete clean and gentle care. A powerful jet spray plus the tub and motor that rotate independently and in opposite directions, creates a powerful water flow that causes garments to rub against each other throughout the cycle for enhanced washing performance. A powerful yet gentle clean in 29 minutes**.

Agitator Innovation (Agitator Top Load Type)
Maximize your wash motions with specially designed fins which create a unique 4-way wash action that moves clothes left and right, up and down for a thorough clean that’s still kind to clothes. A powerful yet gentle clean in 37 minutes.

Allergiene™ Cycle / AAFA Certified
Certified asthma & allergy friendly* by the Asthma and Allergy Foundation of America (AAFA) — LG washers are the first to earn this distinction. Breathe a little easier with the Allergiene™ cycle that uses the gentle power of steam to remove common household allergens in fabrics by more than 95%! A proven solution for creating a healthier home—perfect for the more than 65 million Americans living with asthma and allergies.

Direct Drive Motor with 10-Year Limited Warranty
Backed by a 10-year limited warranty, the LG Direct Drive Motor delivers peace of mind with every load. Fewer moving parts means less noise and vibration, greater stability and durable performance you can depend on for years to come.

*Based on independent testing in normal cycle with TurboWash™ option, 10 lb load (June 2020).
†Based on independent testing in normal cycle with TurboWash™ option, 8 lb Load (July 2020).
**Based on independent testing in normal cycle with TurboWash™ option, 10 lb load (March 2018).
††Based on certification by the Asthma and Allergy Foundation of America (AAFA). ASTHMA & ALLERGY FRIENDLY Mark is a Registered Trademark of the Asthma and Allergy Foundation of America and Allergy Standards LTD.
**WASHER FEATURES**

**SenseClean™ System**
Our washers are big, but that doesn’t mean you have to do a big load every time. Our SenseClean™ System automatically sets the water level and wash time for each load based on the weight.

**Water Plus (Impeller) / Deep Fill (Agitator) (Top Load Only)**
LG top load washers use precise wash motions to ensure clothes move efficiently through the detergent and water mix and come out ultra-clean, all while saving energy and money. But if you decide you want to add extra water to the occasional load, LG gives you the option to get your (deep) fill. Press Water Plus or Deep Fill at the start of any cycle to select the maximum water level. Cycle already started? Just Hit Pause, Water Plus or Deep Fill and then Start. Another plus—the one-time setting will automatically switch back to high-efficiency water levels the next time you’re ready to wash.

**ColdWash™ Technology**
Using the cold cycle on your washer doesn’t have to mean compromising. Powered by the LG Direct Drive Motor and 6Motion™ technology, ColdWash™ technology uses cold water and enhanced washing motions to penetrate deep into fabrics, giving you cold water savings with warm water performance. Can be used with almost any wash cycle and virtually all fabric types—even those you normally wash in warm water.

**TubClean Cycle**
The TubClean Cycle is designed for easy, periodic maintenance to keep your washer fresh. The cycle uses water jets to clean the wash tub and door, and an air dryer removes excess moisture, helping to keep your high-performing washer in tip-top condition.

**SlamProof™ Glass Lid (Top Load Only)**
Enjoy the convenience of a clear lid that allows you to watch your washer in action, uninterrupted. And closing it is safe and quiet thanks to our smooth-operating hydraulic hinge.

**WASHTOWER™ FEATURES**

**Single Unit WashTower™ Design**
Full-size and fully featured, with the washer on the bottom and dryer on top, the sleek single unit LG WashTower™ takes up half the space.* Redefine your space and reinvent how you do laundry with room to add a sink, a folding table or just organized storage—all with a sleek, streamlined look.

**Built-in Intelligence**
Take out the guesswork with AI Fabric Sensors, Smart Learner™ and Smart Pairing™. AI technology can select optimal wash & dry motions and settings. Activate Smart Learner™** in the ThinQ® app, and WashTower™ will remember your preferred settings, from wash temp to spin speed to dry level. With Smart Pairing™, the Washer can auto-select a compatible drying cycle.

**Unified Center Control™**
Only LG WashTower™ has the convenient Center Control™ panel that’s perfectly positioned with both washer and dryer controls at just the right height. Typical stacked washers and dryers place dryer controls at the very top, making them hard to see and reach without using a step stool every time.
DRYER FEATURES

TurboSteam™ Technology
You grab your favorite shirt from the closet only to find that the hanger has left indelible imprints on each shoulder. What to do when there’s no time to wash? LG TurboSteam™ technology to the rescue. Toss the shirt in the dryer, turn on TurboSteam™ and in just 10 minutes* your shirt is back in tip-top shape. Also helps refresh fabrics and reduce wrinkles in half the time of other steam settings.

TrueSteam® Technology
A lot of those drying headaches can be a thing of the past. Our TrueSteam® Technology generates real steam to reduce wrinkles and odors, and practically eliminates the need for ironing.

Wrinkle Care Option & EasyIron™ Option
Pressed for time? Just pop your dry clothes in for a tumble on the Wrinkle Care Option to reduce creases. Who likes ironing? No one. The EasyIron™ Option lightly moistens clothes to make ironing easier and more efficient.

Sensor Dry
Sensor adjusts drying time to eliminate the guesswork. No more damp clothes—the built-in sensor detects moisture levels and automatically adjusts drying time for loads of all sizes. No more over drying—dryer shuts off at just the right time to save energy with less wear and tear on clothes.

FlowSense™ Duct Clogging & Lint Filter Indicators
Keep your dryer clean, efficient, and safe. With the FlowSense™ Duct Clogging and Clean Filter Indicators, you’ll know when it’s time to clean the ducts and the lint filter out to ensure great drying every time, lower utility bills and fewer service calls.

*Based on test conducted at LG’s test lab facility on December 10, 2014.
CLOTHES STYLER / STEAM CLOSET FEATURES

LG Styler TrueSteam®
TrueSteam® technology uses the gentle power of steam to refresh clothing without the use of chemicals or harsh soaps. Reduce odors and smooth out fabrics you don’t want to machine wash and dry on a daily basis.

LG Styler Gentle Dry
Dry special-care items like knits, cashmere, lingerie and other delicates. Avoid the damage of high-heat tumble dryers and help preserve the clothing you love. It also dries clothing and “dry flat” labeled items much faster than conventional air drying.

LG Styler Plug and Go
Can easily be placed in a laundry room, mudroom or walk-in closet—no need for an electrician or plumber. Just plug into a standard 120V outlet, fill the portable water container and go.

Dehumidify Your Space
Dehumidify feature is a space-saving way to eliminate damp air and musty smells in the surrounding room without a standalone dehumidifier. (LG STUDIO only)

LG SIDEKICK™ PEDESTAL WASHER FEATURES

Get it Done Faster
Use the LG SideKick™ on its own or at the same time as the front load washer above to save time. Each washer operates independently, so you can wash one load in hot and one in cold at the same time. Start or stop a cycle or open the door on either washer without interrupting the other.

LG SideKick™ for Small Loads that Can’t Wait
Whether it’s your kids’ favorite shirt, yoga pants or a school uniform, washing a full load seems wasteful for just a few pieces. Now you can wash small loads that just can’t wait with the LG SideKick™ Pedestal Washer or wash two loads at once to save time.

LG SideKick™ Specialty Care
Use the LG SideKick™ to wash small loads that can’t wait or specialty care for delicates. It’s hand wash care, now hands-free. Special cycles for Intimates, Hand Wash and Active Wear ensure proper fabric care and thorough cleaning for all items.

PEDESTAL STORAGE DRAWERS AND SHORT PEDESTAL

WDPSK 29” Pedestal Storage Drawer
- Elevates appliances off the floor by more than a foot for more comfortable loading and unloading
- Spacious drawer helps minimize laundry room clutter

WDPSV 29” Pedestal Storage Drawer
- Elevates appliances off the floor by more than a foot for more comfortable loading and unloading
- Spacious drawer helps minimize laundry room clutter

WDPSL Short Pedestal
- Elevates appliances off the floor by 5 ½”
  - Compatible with Select LG 27” Front Load Washers and Dryers

### Front Load Dryers

- **DLEX7900K (Electric)** – Black Stainless Steel
  - Model / Color: **DLEX7900K (Electric)** – Graphite Steel
  - Cutout Dimensions: 29” x 40 1/2” x 33 1/2”
  - Product Dimensions: 27” x 38 1/2” x 30 1/8”
  - Installation Requirements: Electric: 240V, 30 Amps; Power Outlet Location: Within 48” of Either Side; Plug Type: Gas: 3-Prong (Cord Attached to Unit); Electric: 4-Wire (Cord Required)

- **DLEX7951K (Gas)** – Black Stainless Steel

- **DLEX8108V (Electric)** – Graphite Steel
  - Model / Color: **DLEX8108V (Electric)** – Graphite Steel
  - Cutout Dimensions: 29” x 40 1/2” x 33 1/2”
  - Product Dimensions: 27” x 38 1/2” x 30 1/8”
  - Installation Requirements: Electric: 240V, 30 Amps; Power Outlet Location: Within 48” of Either Side; Plug Type: Gas: 3-Prong (Cord Attached to Unit); Electric: 4-Wire (Cord Required)

- **DLEX8400V (Electric)** – White

- **DLEX8500V (Electric)** – Black Stainless Steel

### Washer/Dryer Combinations

- **WSX2000NA (Electric Dryer)** – Noble Steel

- **WSX2001NA (Gas Dryer)** – Noble Steel

- **WSX2002HBA (Electric Dryer)** – Black Steel

- **WSX2003HWA (Electric Washer)** – White

- **WSX2004HWA (Electric Washer)** – White

- **WSX100HVA (Electric Dryer)** – Graphite Steel

- **WSX100HWA (Electric Washer)** – White

- **WXM101HWA (All-in-One Combination Washer/Dryer)** – White

### All-in-One Combination Washer/Dryer

- **WXM101HWA (All-in-One Combination Washer/Dryer)** – White

### Installation Requirements

- **Electrical Requirements – Washer:** 120V, 10 Amps; Dryer: 120V, 15 Amps (Gas); 240V, 30 Amps (Electric); Power Outlet Location: Within 60” of Either Side of Unit; Plug Type – Washer: 3-Prong (Cord Attached to Unit); Dryer: Gas: 3-Prong (Cord Attached to Unit); Electric: 4-Wire (Cord Required)

- **Electrical Requirements – Dryer:** 120V, 10 Amps; Dryer: 120V, 15 Amps (Gas); 240V, 30 Amps (Electric); Power Outlet Location: Within 60” of Either Side of Unit; Plug Type – Washer: 3-Prong (Cord Attached to Unit); Dryer: Gas: 3-Prong (Cord Attached to Unit); Electric: 4-Wire (Cord Required)

- **Electrical Requirements – Gas:** 120V, 60 Hz, 10 Amps; Power Outlet Location: Within 60” of Either Side; Plug Type: 3-Prong (Cord Attached to Unit)

- **Electrical Requirements – Electric:** 120V, 60 Hz, 10 Amps; Power Outlet Location: Within 60” of Either Side; Plug Type: 3-Prong (Cord Attached to Unit)

- **Cutout Dimensions (Preliminary):** 27” x 39” x 30 1/8”

- **Product Dimensions (W x H x D):** 29” x 39” x 30 1/8”

- **Cutout Dimensions (Preliminary):** 27” x 39” x 30 1/8”

- **Product Dimensions (W x H x D):** 29” x 39” x 30 1/8”

- **Cutout Dimensions (Preliminary):** 27” x 39” x 30 1/8”

- **Product Dimensions (W x H x D):** 29” x 39” x 30 1/8”

- **Cutout Dimensions (Preliminary):** 27” x 39” x 30 1/8”

- **Product Dimensions (W x H x D):** 29” x 39” x 30 1/8”

- **Cutout Dimensions (Preliminary):** 27” x 39” x 30 1/8”

AIR PURIFIER FEATURES

ALL-IN-ONE AIR PURIFIER & HUMIDIFIER

Watering System
Watering Engine rotates at high speed spraying 18L water in an hour to infuse moisture in inhaled air. Atomized water is dispersed from the air purifier to create a comfortable humidity level.

Smart Indicator and Smart Lighting
Check air quality easily with 4 stylish colors and detect the amount of various airborne particulate matter (PM10, PM2.5 & PM1.0) with a PM 1.0 Sensor.

Pure Intelligence is in the Air
Achieve air revitalization with the simplicity and convenience of LG SIGNATURE air purifier’s SmartThinQ™ technology.

Inverter Motor
The LG SIGNATURE air purifier features 10 years of Inverter motor warranty.

PURICARE™ 360° AIR PURIFIER

AAFA Certified LG Air Purifiers
LG is proud to offer Certified asthma & allergy friendly® PuriCare™ air purifiers that remove airborne allergens, such as dust, pollen and pet dander.

360° of Purification
A unique purification method promotes 360 degrees of clean air delivery, including areas low to the ground where infants and toddlers can reap the rewards.

Boost Your Air Delivery
The Clean Booster delivers clean air farther (up to 24 feet*) and ensures more even distribution.

Know the Air Quality, Right Now
The intelligent LED indicator system atop the LG PuriCare™ 360° Air Purifier changes from red to orange to yellow to green as the indoor air quality improves, a visual indication of its effective performance.

*Test by LG International lab & KIMM, Korea Institute of machinery and materials.
VACUUM FEATURES

Powerful Enough to be Your Primary Vacuum
High performance Smart Inverter Motor™ with Axial Turbo Cyclone delivers incredible suction power.

The Brains Behind the Clean
Built-in intelligence analyzes & remembers the details of your space for more efficient, effective cleaning.

Deeper Cleaning, Fewer Tangles
The Power Nozzle with anti-tangle brush lifts dirt, dust & hair from a variety of surfaces.

Clean Anytime With Ultra-Quiet Performance
Vacuum during dinner or while watching TV with powerful cleaning performance that’s also among the quietest.

Filters Out Dust, Dirt and Allergens
Breathe a little easier—True HEPA filter layer traps 99.97% of particles as small as 0.3* Captures fine dust, ultra fine dust and allergens.

Removable and Washable Filters
Easily remove dirt build-up with water to maintain airflow & help keep the vacuum running at its best.

Fast Emptying with Less Mess
Convenient dust bin removes for easy emptying with the press of a button.

Customized Cleaning on Your Schedule
From automatic start times to smart cleaning modes to convenient voice alerts, LG makes it simple to keep your home clean.

*Based on third party testing according to standard ASTM F1977-04

DEHUMIDIFIER FEATURES

Draining Made Easy
With a built-in drain pump, LG Dehumidifiers can continuously drain water directly into a sink, out a window or down a drain.

Everyday Ease
Finally, a dehumidifier that’s effortless for everyday use. LED Display—A large clear display helps you check and control humidity levels in your home. Convenient Moisture Removal—Maintenance is a no fuss affair with a convenient water bucket and tray handle. Mobile Design—Four smooth rolling wheels mean it can be moved without breaking a sweat.

Think of the Possibilities (UD501KOJ5 Only)
Expand the limits of your dehumidifier with the LG ThinQ® app. Start or stop the dehumidifier, monitor bucket capacity and get notifications all from your smartphone.

Designed with Safety in Mind
Safety is a top priority for LG. That’s why the LG Dehumidifier was designed with features to promote safe dehumidification, such as a Safety Standby Mode that prevents overheating, and internal components that are made of thermally resistant materials, such as glass, fiber, and silicon housed in a steel structure.

LG ThinQ®

Draining Made Easy

AIR PURIFIERS

AM501YWWM1
All-in-One Air Purifier & Humidifier
• 318 sq. ft. Coverage
• Watering System (18L water per / hr)
• Filter System:
  – Black PM 1.0 (Particulate Matter) Filter
  – Black Deodorizing Filter
• Rain View Mirror
  ○ AM501YWWM1 – White

AS560DWR0
PuriCare™ 360 Dual Filter Air Purifier with Clean Booster
• 360° Purification
• Clean Booster
• True HEPA Filter
• PM 1.0 (Particulate Matter) Sensor
• Smart Indicator
  ○ ThinQ® Technology with Google and Amazon Alexa Compatibility
  ○ AS560DWR0 – White

AS330DWR0
PuriCare™ 360 Single Filter Air Purifier with Clean Booster
• 360° Purification
• Clean Booster
• True HEPA Filter
• PM 1.0 (Particulate Matter) Sensor
• Smart Indicator
  ○ ThinQ® Technology with Google and Amazon Alexa Compatibility
  ○ AS330DWR0 – White

DEHUMIDIFIERS

UD501KOJ5
PuriCare™ 50 Pint Dehumidifier with Drain Pump & Wi-Fi
• Built-in Drain Pump Feature
• Wi-Fi Capability (LG ThinQ®)
• Dehumidification (Pts / Day) 50
• Convenient to Use Water Bucket & Ergonomic Handle
  ○ UD501KOJ5 – Black

UD501KOG5
PuriCare™ 50 Pint Dehumidifier
• Dehumidification (Pts / Day) 50
• Convenient to Use Water Bucket & Ergonomic Handle
• Designed with Safety in Mind
• Full Bucket Indicator with Auto Shut-Off
• Washable Filter
  ○ UD501KOG5 – Black

R975GM1
LG CordZero™ ThinQ® Robotic Vacuum
• Smart Functionality with Wi-Fi
  – HomeGuard™
  – HomeView™
  – Cleaning Diary
  – Scheduled Cleaning
  – 7 Smart Cleaning Modes
  – Smart Resume Function
  – 3D Dual Eye Mapping System
  – Virtual Fencing
  – Collision-Safe Digital Bumper
  ○ R975GM1 – Matte Grey

VACUUMS

UD301KOJ5
PuriCare™ 30 Pint Dehumidifier with Drain Pump & Wi-Fi
• Built-in Drain Pump Feature
