The UH5B Series with webOS signage, allows for customized apps that are easy to create using LG's Software Development Kit. The built-in Wi-Fi and SoC reduces total cost of ownership, simplifies installation, and managing content is easy and convenient.

KEY FEATURES

ULTRA HD RESOLUTION (3840X2160)

Excellent energy-efficiency and cost-savings with the M+ panel*, which decreases power consumption by 31% compared to an RGB panel.

High Efficiency Video Coding

Supports HEVC-based content which has the double data compression ratio than the H.264 so network traffic can be reduced by half.

Up-Scaling and Super Resolution

Up-scaling and Super Resolution technology enhance the quality of FHD content to near-UHD quality.

LOW POWER CONSUMPTION BY M+

Excellent energy-efficiency and cost-savings with the M+ panel*, which decreases power consumption by 31% compared to an RGB panel.

SoftAp

The UH5B with SoftAp software can operate as a wireless access point for mobile devices.

MIRRORING

Content sharing is convenient through a Wi-Fi network.

QUAD CORE SOC (SYSTEM-ON-CHIP)

The High Performance SoC can execute several tasks at the same time and provides smooth content playback

EASY MAINTENANCE WITH REAL TIME REMOTE MONITORING

When an alarm occurs, an e-mail notification is sent using SuperSign C or SI SW through the SNMP Protocol. In case of malfunctions or errors, real-time remote care is available

SLIM DESIGN | NARROW BEZEL

LG's monitors featuring a Direct-LED Backlight, have a stylishly slim design that fit perfectly into narrow spaces while ensuring high energy efficiency. The slim bezels are a perfect fit in confined areas and are easy to install.

webOS

LG's webOS enabled displays feature an all-in-one hardware and software platform that allows software developers to install and run their software in a more simplified solution. This approach offers architecture that enables easy-to-build web-based apps across multiple platforms. This approach offers software architecture, including iOS®, Android® and Windows®. Using LG's SDK, integrators can construct their own ideal customized signage solution for their clients.

Run messages on up to 50 display screens in the form of a billboard without any additional hardware. Advertisements, information and broadcast content can be arranged on the same screen to attract attention and deliver specific messaging to your customer base.

LG SuperSign Lite Usage Example

Different layout and designs available.

CONFORMAL COATING

Conformal coating helps protect against water, dust and iron powder deposits which accumulate in harsh environments, saving on expensive installation and added enclosure costs.

With Conformal Coating

Without Conformal Coating

BEACON CONVENIENT SUPPORT

With BEACON and Bluetooth Low Energy (BLE) supported by UH5B, retail stores can provide coupons and information in real-time.

OPS (OPEN PLUGGABLE SPECIFICATION) KIT / HDBASET BOX

The UH5B provides an OPS Kit to connect a third-party OPS player or HDBaseT box. Users have the flexibility to choose any media player as long as it complies with OPS.

UH5B

Piggy back
