

## 21:9 UltraWide Monitor

### Perfect Choice For Business World

► 29UB65-P

29" class (29.0" measured diagonally)

## Features

### MAXIMIZE YOUR WORK EFFICIENCY

29UB65 delivers 21:9 wide ratio and 2560x1080 Full HD resolution with pivot and height adjustment features for professionals. It makes work environments more convenient than ever and maximizes work productivity in any field of business.

#### READER MODE **NEW!**

- Reducing blue light to protect your eyes, Reader Mode provides optimal condition for reading. With just a touch of a button, you can comfortably read on the monitor for long.

#### FLICKER-SAFE **NEW!**

- New dimming technology is applied to minimize the flicker level causing eye fatigue. With almost-zero flicker technology, you'll be able to watch longer, comfortably.

#### SUPER ENERGY SAVING

- LG's Super Energy Saving Mode reduces power consumption without lowering the brightness of the monitor.

## Specifications

14MS Response Time, 5MS (G to G)

Built-in Speakers

Tilt, Pivot, Height Adjustable, Base Detachable Stand

Vesa™ Compliant Wall Mountable

3-Year Limited Warranty Parts/Labor/Backlight

## Answer the Demands of the Business World

The 21:9 ratio is the perfect professional fit for software engineers, video / sound editors, and graphic designers. Imagine 2 conventional high quality monitors attached for multi-tasking, but their screens connect and extend seamlessly. Now you can use a program with long-range panoramic viewing full length, without any bezel in the middle or dragging cursors. No longer divide your focus into separate monitors, the 29UB65 is the perfect companion for your profession.

• 21:9 Full Screen or 2560 x1080 Resolution may not work depending on content, device, interface or graphic card.

## Optimal Productive Working Space with Microsoft® Office

The 29-inch display with a 21:9 UltraWide Full HD (2560x1080) provides an efficient environment for using Microsoft® Office programs such as Word, Excel and OneNote. The 21:9 UltraWide Full HD shows 9 more columns compared to conventional 16:9 monitor in excel, allowing you to see all the contents in full view without scrolling to see hidden columns or rows and increasing your work efficiency.

• 21:9 Full Screen or 2560 x1080 Resolution may not work depending on content, device, interface or graphic card.

## Maximized Ergonomics for Your Convenience

Like other smart devices, the 29UB65's Pivot & Height Adjustable feature allows you to simply rotate the screen to fit vertically long images or files. When pivoting, you can easily adjust its height too. Leave dragging and scrolling behind. Let the monitor adjust to your images and needs.

## Perfect Screen for a Small Group Collaboration

Connect two devices to a single monitor with Dual Link-up that allows an HDMI + HDMI link. Now you and your colleague can simply bring each other's devices and connect to a single monitor to share and compare information. Freely show and control your screen while watching your partner doing the same on the opposite side of the monitor. Don't bother installing annoying projectors in your small room or worry when your conference room is occupied, the 29UB65 is here for you.

• 4-Screen Split: software requires DVI-D(Dual Link), DisplayPort or HDMI connection with Windows XP/Vista/7/8 or Mac OS® X 10.7 (Lion)/10.8 (Mountain Lion)/10.9 (Mavericks).

## The 4-Screen Split Allows Multiple Jobs to Be Done in a Single Screen

With its wide screen ratio, now you can open 4 programs on a single screen to see your information in a single glance while working.

The size of sub screens is user-controlled. The 29UB65 is compatible with Mac® and not only provides convenience but also productivity in a single click, you can split your screen into 2 to 4 subscreens.

4-Screen Split software includes an auto-fitting function. With a simple drag or a double click, a new window will automatically fit into the marginal room of the screen. The 21:9 screen's large space is a perfect environment for your efficient multi-tasking, enabling you to open and run an editing program and its source clip folder without minimizing.

The size of sub screens is user-controlled. The 29UB65 is compatible with Mac® and not only provides convenience but also productivity in a single click, you can split your screen into 2 to 4 subscreens.

• Dual Link-up requires specific combination of HDMI/DisplayPort/DVI-D(Dual link) connection with each device.

## More Convenient and Easy Action

### Comfort Your Eyes with Flicker Safe Certified by TUV and Reader Mode

Protect your eyes from exhausting flickers and blue lights. LG's new Flicker Safe system is always on to reduce the flicker level to almost zero. In addition, activate the Reader Mode to minimize harmful blue lights with a simple touch of a hot-key. Spend as long as you want working, gaming, or watching movies without burdening your eyes. Use the convenient and easy hot keys for more satisfaction.

### Control with Ease by the Intuitive Joystick

The joystick is a harmony of accurate menu controls and analogue sensitivity. With the fun control of a conventional joystick, its modern technology and design allow for simple control with a pleasant touch. In addition, intuitive UI with no overlapping is easier to understand and select menus.

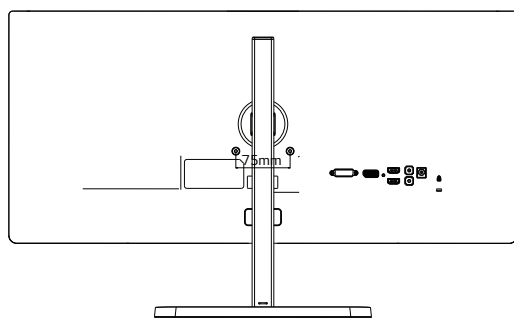

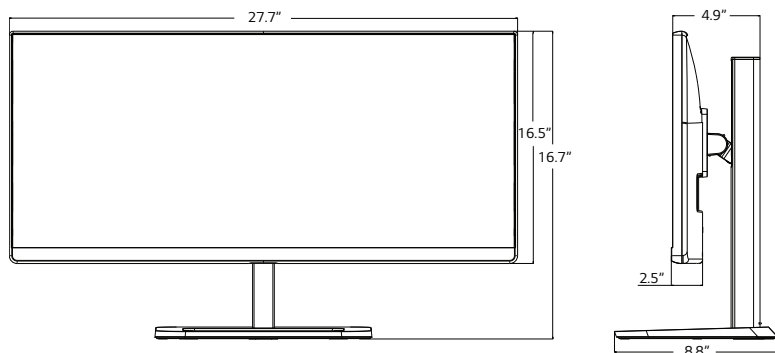

## Recognized by Experts LG IPS

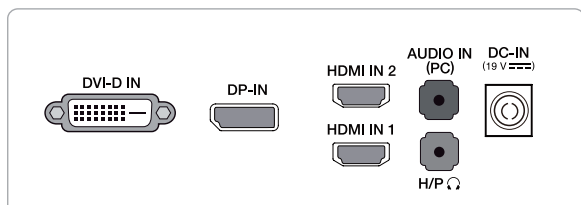

LG IPS monitor has won several prestigious awards for its utmost picture quality. It is the perfect solution for those who need the most lifelike color expression, which brings the original image alive to the screen.
