## UHD Commercial TV with Essential Smart Function

### UU340C

LG's latest Public Display TV, the UU340C supports UHD/4K resolution to provide optimal viewing in diverse business environments. With enhanced management functions including WOL (Wake On LAN), SNMP (Simple Network Management Protocol), and SuperSign Solution, managers can increase management efficiency while the edge-lit LED display and UHD picture quality improve the digital viewing experience.

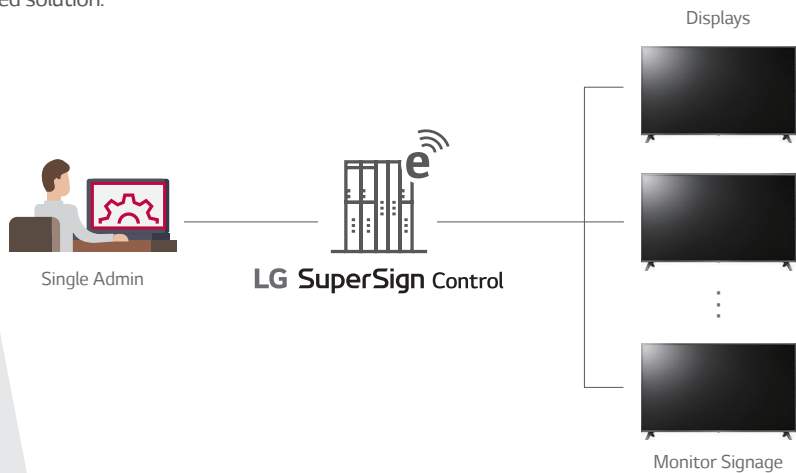

\* Actual product appearance may differ from the above simulated scene.  
\* UU340C (N.A.) series basically have a two-pole stand.

# UHD Commercial TV with Essential Smart Function UU340C

## Remote Management and Amazing Quality

### SuperSign Control

SuperSign Control is a basic control software. Up to 100 displays are controlled by one account with a single server. Essential factors such as power, volume, scheduling can be remotely adjusted, with firmware updates supported. For larger-scale systems, SuperSign Control+ offers an optional, more advanced control system (additional cost) that provides an amazing, easy-to-manage server-based solution.

### Perfect picture quality and color

Enjoy Full HD content in 4K ULTRA HD quality with the 4K Upscaler. The 4K Upscaler automatically upgrades Full HD content to ULTRA HD through several steps of upscaling processes. This LG TV can also deliver intense highlights, vivid colors and deep black on the screen by HDR10.

\* SuperSign Control: Free version (Good at - Operating small and medium-sized signage displays)  
\* SuperSign Control+: Advanced and Paid version (Good at - Operating large-scale signage displays)  
\* See more for SuperSign Control+ at [LG.com/B2B](http://LG.com/B2B)

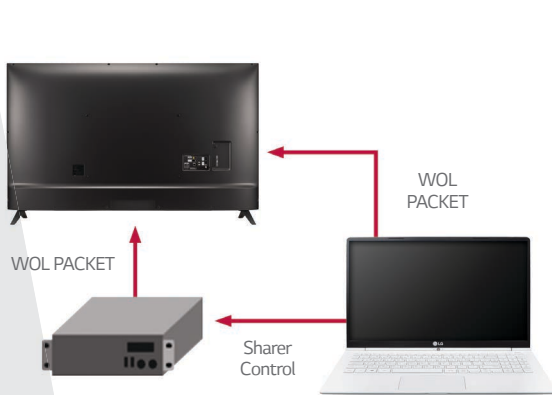

# UHD Commercial TV with Essential Smart Function

## UU340C

### Easy Management & Usability

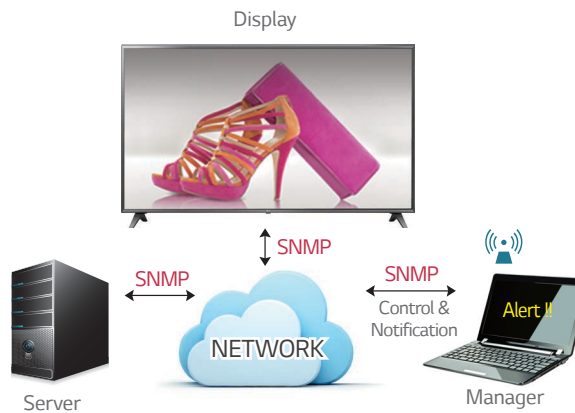

#### Wake-up On LAN

WOL is the Ethernet networking standard to turn on TV or PC by transferring a network message. The message is transferred through another computer connected via LAN.

#### SNMP

SNMP (Simple Network Management Protocol) ensures convenient network management for system integrators and business managers.

#### Compatibility with AV Control system

This LG TV has Crestron Connected® Certification, a function that meets the growing needs for both device and environmental room controls in corporate meeting spaces.

\* It is a network based control system.  
Available AV control systems may differ by regions.

### Value Added Features\*

#### Time Scheduler

Create your own time scheduler on your Commercial TV. Once you set opening/ closing hours and holidays, the TV will turn on/off according to work schedule.

#### USB Auto Playback

Create and sequentially play playlists composed of informative media (video, music and images) you choose without complex PC installation.

#### Welcome Video / Screen

With the capability to display various video formats as well as images, UU340C Commercial Lite TVs allow for a greater variation of greeting messages in hotel rooms, helping customers feel more welcome and cared for.

#### External speaker out

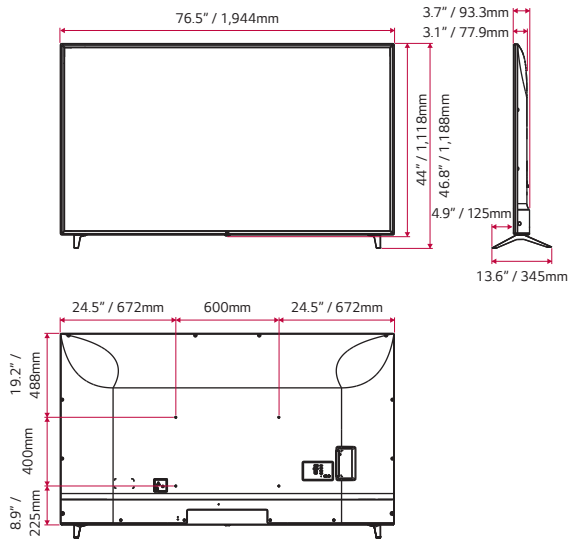

Enhance the entertainment experience by adding an additional speaker. Guests listen to and control the TV audio from anywhere in the community areas, including restrooms.

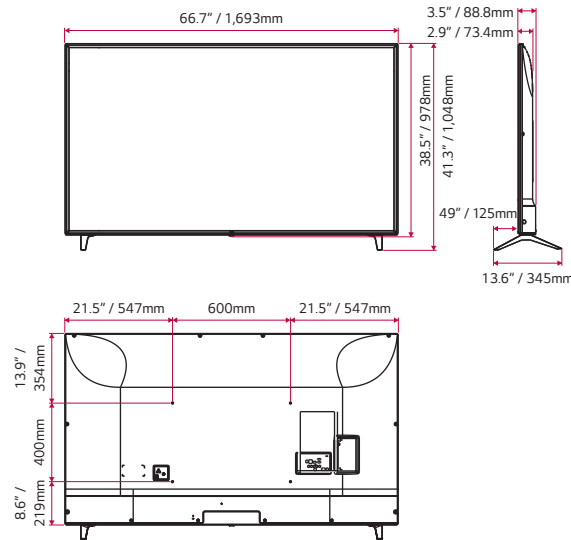

\* Applies only to 43", 49", 55" and 65" models.
