## Pro:Centric Smart Application Platform

**Pro:Centric Hotel Management Solution**

Pro:Centric SMART is optimized for customizing hospitality services for hotel brands and guests through an IP & RF infrastructure. With its high picture quality, sophisticated design and advanced connectivity functions, it upscales in-room entertainment and increases convenience through implementation of high-end technology.

**Pro:Centric Server Application**

You can now differentiate your hotel with our customizable templates and pages which can be specialized for your property. Pro:Centric provides you a solution that is easily customizable for your business.

**Pro:Centric Direct Solution**

Pro:Centric Direct is a hotel content management system that supports simple editing tools and provides various solutions such as 1-click service and IP-network-based remote management. With the solution, users enable to design UI easily and provide customized service while managing TV efficiently.

Pro:Centric V Hotel Management Solution
Pro:Centric V provides comprehensive solutions in RF infrastructure. Through the Pro:Centric Server and App, hoteliers are able to customize their settings and deliver information on hotel facilities and wake-up call services, weather forecasts and other messages to guests, all while reinforcing the hotel’s brand image.

Multi Languages
39 languages including Hebrew, Arabic and Farsi, and language menu alignment are supported, making your guests’ stay a more comfortable one.

Basic & Easy Templates
Pro:Centric Application (PCA) provides one Basic & Easy Template, making a total of three templates, that customers can select according to their preference.

Customizable Template & Page
Choose an alternative look & feel template based on your preference, and edit multiple sections with 40 pages of billboards by yourself with the web based tool. (Max 15 pages / section Available)

Multi Channel Spooling
Operation of up to 8 hotel channels (22 sub-channels) can offer various types of information and added services.

**Hospitality Features**

**SmartShare**
SmartShare allows users to share content more easily and quickly. It also searches for the content they want in order to share it more easily and accurately, thereby simplifying the process of sharing between various devices.

**ScreenShare**
Connect a smartphone or a laptop PC to TV via a Wi-Fi Direct connection. The TV will display the device's screen, and users can share their content and memories with friends and family in the room.

**Bluetooth Sound Sync**
Bluetooth Sound Sync enables users to listen to music on a mobile device through TV speakers via Bluetooth connection.

* Support devices for Bluetooth Sound Sync: Android (above v4.4 KitKat) / iOS based Mobile Device

Hospitality Features

SoftAP and Embedded b-LAN
The Software-enabled Access Point (SoftAP) is a “Virtual” Wi-Fi feature that uses software to create a wireless hotspot. Embedded broadband local area network (b-LAN) capability allows PPV/VOD support without the need for a set top box.

EzManager
EzManager provides convenient installation function that helps to set up Pro:Centric TV settings automatically without extra effort of configuration. Auto-installation requires 1~3 minutes while manual installation requires 3~5 minutes.

MPI Protocol
LG Protocol through MPI (RJ12) allows communication between TV and SI interface box, eventually giving smart service and more contents to Hotel guests.

Smart Solution

UU670H

**Hospitality Features**

**Instant On**
The high speed loading system enables users to enjoy content immediately after turning on the TV.

**External Speaker Out**
Enhance the entertainment experience by adding an additional speaker. Guests listen to and control the TV audio from anywhere in the business areas, including restrooms.

**Commercial Swivel Stand**
Expand the range of comfort for the guests with a commercial grade stand by allowing them to watch a TV from virtually any angle.

* Only 55” / 49” / 43”
A Standard Smart Hotel TV with Pro:Centric Smart
UU670H

**Hospitality Features**

**Multi IR**
Multi IR function eliminates the remote control signal interference between TVs in multiple dwelling beds. This system will work using the same LG TV model.

**Pro:Idiom**
Prevent any illegal copying of content by the widely used DRM (Digital Right Management).
