Quick Installation

The GSEH series is 1.5 times larger than a conventional LED cabinet*, making it much easier to fit a screen of the same size.

*Conventional LED cabinet size is 1.0 x 1.0m

Easy Maintenance

When rear service is required, the L-shaped hinges that are supported on the front and the rear of the cabinet doors can be removed. This allows maintenance to be performed in a narrow space.

Compatibility with LG Software Solutions

Powered by LG's high performance system controller, the LSAC series is compatible with LG software solutions including SuperSign CMS, LED Assistant, and ConnectedCare, which help customers have even more control over their systems.*

* LG ConnectedCare and LG SuperSign CMS are each sold separately. Actual user interface may vary in different webOS versions.
