Combining a tough, lightweight magnesium alloy body with an ultra-thin form factor, excellent performance and great battery life, this mobile thin client is the ultimate tool for the business traveler. This LG gram mobile thin client has been equipped with 11th Gen Intel processors, a 80 Wh lithium-ion battery and is the perfect solution for a thin client on the go.

Light Weight

The LG gram 17-inch laptop offers awesome screen size without the weight. With gram's innovative design and construction, this laptop weighs less than 3 pounds, so it's easy to take anywhere.

Tough & Low Profile

The sleek metal alloy body of the LG gram combines advanced nano carbon with magnesium to create a light weight yet durable housing for the computer that's still beautifully thin at 0.7 inches thick.

Multiple Ports

Connect it all with gram's host of popular ports. Gram's HDMI port lets gram connect easily to virtually all types of high-definition displays.

Long-Lasting Battery

Portability is a function of battery life in addition to size and weight, and this LG gram has been designed to keep going with hours of power to hit deadlines and keep streaming long after others have quit.
