LG QHD Monitor

31.5-inch QHD Monitor

32BR85Q-B

- 31.5-inch QHD (2560 x 1440) IPS Display

- USB Type-C™
  (Power Delivery 65W, Transmitting AV & Data)

- sRGB over 99% (Typ.) with HDR10

- 3-side Virtually Borderless Design

- One Click Stand & Ergonomic Stand

- Flicker Safe & Reader Mode

- Dual Controller

Expansive Display Designed for Multitasking

31.5-inch QHD (2560 x 1440) IPS Display | 3-side Virtually Borderless Design | sRGB over 99% (Typ.) with HDR 10 | Dual Controller

The 31.5-inch QHD IPS display boosts productivity by providing an expansive view for users to take in more information at a glance, while its 3-side immersive Virtually Borderless Design further optimizes workflow efficiency. It also features HDR10, which delivers stunning brightness and dynamic detail to improve overall clarity, and Dual Controller that allows users to control two or more devices connected to the same network via a single keyboard and mouse, for data sharing[1] from a variety of sources and perform tasks such as documentation tasks at the same time.

Single Cable Solution to Improve Efficiency

USB Type-C™ (Power Delivery 65W, Transmitting AV & Data)

The 32BR85Q is a multi-port display with USB Type-C™ cable[2] to support seamless connectivity and up to 65W charging for a variety of devices. This conveniently allows users to configure and optimize their workstation, freely transferring and managing AV and data via a single cable, and thereby reducing unwanted clutter from messy cabling that was common with previous iterations.

Ergonomic Design for Prolonged Viewing

One Click Stand | Ergonomic Stand | Flicker Safe | Reader Mode

The one-click setup of the 32BR85Q does not require additional equipment, and features a flexible ergonomic stand with customizable tilt, height, rotation, and pivot adjustments. Flicker Safe reduces screen flickering, and reader mode automatically corrects display brightness and color to prevent high levels of blue light, which may be preferable for some users reading long documents.

1) Data sharing requires a network connection.
2) The cables included in the package are USB-C, HDMI and DP.

Specifications

Model	32BR85Q-B
Display Size	31.5-inch
Borderless Design	3-side Virtually Borderless Design
Resolution	QHD (2560 x 1440)
Panel Type	IPS
Brightness (Typ.)	350 nits
Color Gamut (Typ.)	sRGB 99% (CIE1931)
Contrast Ratio (Typ.)	1,000:1
Response Time (GtG)	5ms (GtG at faster)
Viewing Angle (CR≥10)	178º (Right / Left), 178º (Up / Down)
Features	HDR 10
	Reader Mode
	Black Stabilizer
	Dynamic Action Sync
	Smart Energy Saving
