**Your Path to Pure Independence**

When you purchase products from LG Electronics U.S.A., you can feel good about buying from a brand that shares your commitment to the environment. We're dedicated to creating a more sustainable, better life—with initiatives like Zero Carbon 2030, a pledge to achieve net-zero carbon emissions within a decade. From developing intelligent solutions that use less power to reducing our carbon footprint, LG Electronics understands the importance of being environmentally responsible. So, we're doing our part, with joint efforts of homeowners and our partners, to steer the world toward a better future.

## Your Home. Your Way.

With trusted, innovative technology, and more than six decades in consumer electronics, LG Electronics now offers a more reliable and sustainable power alternative that will perform when homeowners need it most. Introducing LG Electronics Home 8 Energy Storage System (ESS)—a reliable, complete energy generation and storage solution that reduces your dependency on the electrical grid and offsets peak shifts—making your home even more valuable, environmentally and economically.

## Power the Possibilities

### Independence

Stop relying on the electrical grid and fuel-type generators.

### Confidence

Stay powered-up 24/7 even when the electrical grid is down.

### Innovation

Create a smart home, backed by a trusted technology brand.

### Sustainability

Go green and clean—for your home and your wallet.

## Energy Storage for Life Uninterrupted

Life happens at home. Stay up and running with the all-in-one LG Electronics Home 8 Energy Storage System, built to store and provide up to 14.4 kWh of usable energy from solar panels or AC-coupled power from the grid. Because with more reliable energy, you can keep doing what you love, where you're most comfortable. Bring more energy to life and achieve pure independence with clean backup power.

The Home 8 is built to provide clean, cost-effective, reliable power when you need it most.

## A Brighter Future Starts at Home

### Achieve Independence

Fuel your sustainable lifestyle and reduce your reliance on the electrical grid.

### Establish Secure, Backup Power

Protect your home against power outages with seamless back up power.

### Save on Peak Pricing

High energy costs in the summer or winter? Offset them with the Home 8.

### Take Control

Achieve the ultimate, integrated smart home with our ThinQ® app—letting you manage and schedule your Home 8 system—and interconnect all of your LG home appliances.
