Your music is instantly available at your fingertips. With the optional 16GB microSD card, you can easily transfer music between your phone and PC.

1. Insert a microSD card* (gold contacts facing down) into your phone.

2. Connect a USB data cable* between the phone and your PC.

3. Select **USB Mass Storage (2)**.

4. The PC will recognize the phone as a **Removable Disk**, and a screen will appear. Drag and drop music files on your PC in the **My_Music** folder.

microSD Port

*microSD card and USB data cable required (sold separately).

Playing Music

No need to carry around a separate MP3 player! The integrated music player offers you ample storage space to keep the music playing on and on.

1. Insert a microSD card* containing music with the gold contacts facing down.

2. With the slide closed and the phone unlocked, press **left** on the **Navigation Key** and then press **Music (1)**.

3. Music is organized by playlists, recently played, artists, genres, and albums. Press the ⬜ **Key** to select **All Songs (1)**.

4. With the song you want to hear highlighted, press the ⬜ **Key** to begin playing that song.

5. Use the side **Volume Keys** ◀ ▶ to adjust the volume.

*microSD card sold separately.

Bluetooth® Wireless Technology Pairing

Bluetooth wireless technology allows you to connect easily to headsets, speakers, computers, and more. Work, chat, and listen to music without messy cords and wires!

1. Set your *Bluetooth* accessory into pairing mode.*

2. With the slide closed and the phone unlocked, press the 🔲 **Key** and then select **Settings (9)** > **Bluetooth (6)** > **Paired Devices (1)**.

3. Press the **Left Soft Key** for **Search**. If *Bluetooth* wireless technology is off, select **Yes (1)** to turn it on.

4. Select **New Search (1)**.

5. Once your *Bluetooth* device has been found, highlight it and press the 🔲 **Key** for **Pair**.

6. Enter the passcode* (typically "0000" – 4 zeroes), and then press the 🔲 **Key**.
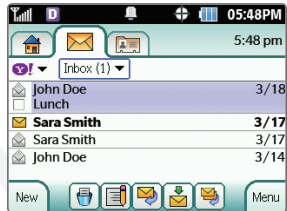

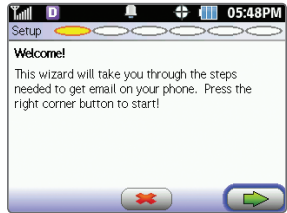

7. Select **Yes (1)** to connect with the device.

*Refer to your *Bluetooth* accessory's user manual for information about initiating pairing mode and the passcode.

Checking your email anytime during your busy day is easy with this sleek phone. Slide out the four-line QWERTY keyboard and quickly begin sending and receiving email.
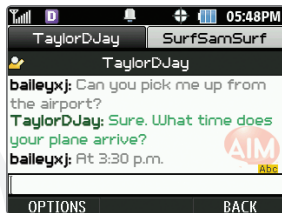

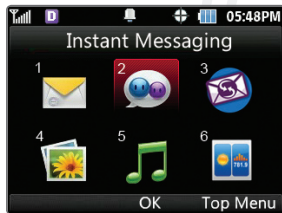

1. Slide out the QWERTY keyboard and select **Email (3)**.

2. Choose whether to accept the charges, and then follow the steps in the wizard to set up your email.

3. Highlight the message you want to read and press the **OK** **Key**. To compose an email, press the **Left Soft Key** for **New**.

Chat instantly and efficiently on your LG Banter using the four-line QWERTY keyboard. Instant messaging keeps you in touch without making a phone call.

1. Slide out the QWERTY keyboard and select **Instant Messaging (2)**.

2. Choose whether to accept the charges.

3. Highlight the instant messaging client you wish to use, and then press the `OK` **Key**.

4. Use the QWERTY keyboard to enter your screen name/ID and password, and then press the **Right Soft Key** for **Sign In**.

5. Highlight a contact that is online, and then press the **Right Soft Key** for **Send IM**.

6. Type your message, and then press the **Right Soft Key** for **Send**.
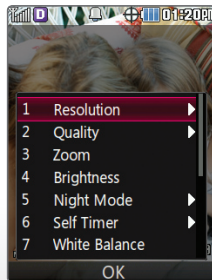

Don't miss any special moments with the LG Banter's 1.3 megapixel camera with zoom and many other customizable features.

1. With the slide closed and the phone unlocked, press and *hold* the 🔳 **Key** on the left side of your phone to access the camera viewfinder.

2. Press **left** or **right** on the **Navigation Key** to adjust the brightness. Press **up** or **down** on the **Navigation Key** to adjust the zoom.* Press the **Right Soft Key** for **Options** to access other customizable camera options.

3. Press the 🔳 **Key** to take the picture.

4. Press the 🔳 **Key** to send the photo to someone.

*Camera setting of 960 x 1280 pixels does not support zoom function.
