

# THE PHONE THAT CONNECTS YOUR LIFE.

## AUDIENCE

Your phone says a lot about who you are and what you like. Better yet, it tells you what everyone in your peer group is up to and it keeps you connected. Social networking drives your life outside the classroom. Having a cutting-edge cool handset that's affordable and makes it easy to text and tune out once in a while is the perfect choice.

## ATTRIBUTES

LG Banter™ Touch has messaging written all over it. Its 3" touch screen makes a perfect viewfinder for the 2MP camera's frame-by-frame digital scrapbook of friends and fun. There's plenty of real estate for chats, games, and web browsing, too. A 5-line QWERTY keyboard gets a thumbs up. And advanced *Bluetooth®* lets you listen to music or print your photos wirelessly. Totally cool.

## ADVANTAGES

### 2MP OF PAPARAZZI PIX AND CLIPS

Snap nice, rich photos and videos that'll highlight fine points and freckles alike. You get zoom and multishot options, too.

### CONNECT FREELY

Who needs cords? Listen to tunes on a stereo headset or print out photos without being tethered to your phone.

### EFFORTLESS QWERTY TEXTING

Five lines deep, this spacious slide-out QWERTY has room for thicker thumbs and a separate numbers line.

### 3" TOUCH SCREEN

Bigger than many in its class, the large display makes it easier to chat at length, browse the web, set up a shot, or just navigate.

### A BETTER MUSIC MIX

Plug in your 3.5mm stereo headset or go wireless. Either way, Banter Touch handles four music formats to optimize your playlist.
