

A SMARTER PHONE FOR A SMARTER LIFESTYLE.

LG Quantum, built on the Windows® Phone OS 7 glance-and-go experience platform, was designed to be easy to use and do more in fewer steps. LG Quantum's convenient full QWERTY keyboard enables even faster communication for those longer e-mails when a touch screen just won't cut it. The superfast 1GHz processor, 720p HD video capture and playback, and exclusive "Play To" feature that streams your media to a DLNA-DMR equipped entertainment device make LG Quantum an incredibly cool, and seriously fun, productivity tool.

A SIMPLER, FASTER UI. LG Quantum's Windows Phone OS 7 leverages a 1GHz processor that updates your dynamic tiles or "hubs" quickly.

THE RIGHT TEXT ENTRY TOOLS. Crafting your thoughts is easier than ever with LG Quantum's capacitive touch screen virtual QWERTY. It also has a slide-out landscape full QWERTY keyboard so you can type even faster.

YOUR LIFE ON DISPLAY. "Play To" uses built-in DLNA technology to talk wirelessly—and oh so easily—with a DLNA-DMR enabled device. Show your favorite shots and video clips or stream your playlist to a Windows 7 PC, big screen TV, or a real sound system.

HIGH-DEF CINEMA. LG Quantum plays even bigger than its 480 x 800 screen looks. With a 5MP camera, your photos are movie poster quality, and with 16:9 ratio, 720p HD video recording (24 fps) and playback (60 fps), your "indie" film will look rich and smooth.

- Capacitive Touch Screen with Sliding Full QWERTY Keyboard
- Qualcomm 1GHz Processor
- 16GB Built-in Memory
- Windows Phone OS 7
- 5MP Camera with Flash & 720p HD Video Capture
