LG HIGHLIGHTS NEW TOOLS TO HELP EDUCATORS CREATE, MANAGE, SHARE AT ISTE LIVE 2025

*New LG CreateBoard Software, LG ChromeOS OPS Integration,
Expanded Educator Program Headline LG's Commitment to Connected Learning*

SAN ANTONIO, Texas, June 25, 2025 — Education technology leader [LG Electronics USA](#) is showcasing a comprehensive portfolio of innovative products, software solutions and strategic partnerships at ISTE Live 2025, all designed to help educators more effectively create, manage and share instructional content in today's connected classrooms. LG is exhibiting its solutions here this week at Booth #3524 in the Henry B. Gonzalez Convention Center.

“From our award-winning LG CreateBoard® interactive displays – now available in a wider range of flexible configurations – to new software that extends LG CreateBoard functionality across PCs and tablets, LG is demonstrating its commitment to supporting the full spectrum of educators’ needs,” said Victoria Sanville, education director at LG Electronics USA. “Whether through hardware, software, professional development or support, LG is a trusted partner in helping schools deliver meaningful, tech-enabled learning.”

Among the new offerings on display, LG is debuting **LG CreateBoard Core**, tailored for schools that prefer to operate with their own content management systems and operating platforms. Also featured is the new **LG Chromebox OPS** for LG CreateBoard, which transforms the display into a large-format Chromebook, enabling seamless integration with Google-based learning environments. Rounding out the innovations is **LG CreateBoard Prep**, a new, free interactive lesson-planning software that allows teachers to prepare and collaborate from virtually anywhere using a laptop or tablet.

“These aren’t just product updates, they’re significant advancements that expand the reach and versatility of our LG CreateBoard platform, helping more teachers and districts unlock new possibilities for student engagement,” Sanville said.

In addition to unveiling new tools, LG is presenting live demonstrations in collaboration with top education partners. **Google** is highlighting its latest ChromeOS classroom features; **EduProtocols** is showcasing its professional training programs; and **Kokomo24/7** is demonstrating school safety technologies, including emergency alert capabilities. The lineup includes:

Monday, June 30

- 10 a.m. | Ready, Set, Manage with CreateBoard Prep – Farah Ihsan, LG CreateBoard Expert
- 11 a.m. | Google Chrome + Classroom Tool Kit – Google Specialist

Wednesday, July 2

- 10 a.m. | Ready, Set, Plan with CreateBoard Prep – Amy Oelschlager, LG CreateBoard Expert
- 11 a.m. | Making School Safety Easier: Lessons from Leading Districts – Nick Welch, Kokomo24/7

At ISTE Live 2025, LG is also inviting more educators to join the **LG Educators Program**, an initiative that empowers teachers to share their love for educational technology while earning rewards as LG ambassadors. Members inspire peers, promote innovative learning strategies, and gain a platform to showcase success stories from their own classrooms. The program also offers opportunities to network, collaborate, and explore ways to bring LG technology into schools.

“The LG Educators Program gives passionate educators the tools and community they need to teach more effectively and drive innovation,” said Sanville. “We’re proud to already have hundreds of members nationwide, and we’re excited to grow that number even more.”
