

MARQUEE™

BRILLIANCE IS ALWAYS IN STYLE.

How do I turn heads without even trying?

That's easy, I just flash the crisply vivid touch-screen from my LG Marquee and it's like a members-only pass into the club of tech-sophistication and undeniable style. Not only does it have jaw-dropping features, but it's also the perfect accessory for every occasion. With its svelte body and trendsetting style, Marquee struts from studio to runway to boardroom without missing a single step.

But, just like me, Marquee is more than a pretty face. With a killer ensemble of features; 1 GHz processing and the latest versions of Android™ and Adobe® Flash, it's smart, talented, and savvy enough to be my assistant, business manager, and entourage all in one. Plus dual cameras mean I can snap to-die-for photos at after-parties, or video chat with my people outside the velvet rope. A device like this is the flawless essential that'll never go out of style.

A Sight to Behold

The generous, vivid 4" NOVA display auto-adjusts brightness making it easy to read, even in direct sunlight. So, no matter the light or time of day, Marquee always shines clear and bright.

Great Bone Structure

Don't be fooled by its startling beauty on the outside, as it turns out the inner-workings are equally as stunning! With a 1 GHz processor it has a power to perform all kinds of tasks, simply and seamlessly.

Total Package

With both Android 2.3 and Adobe Flash Support, Marquee's user experience is a serious combination of brains, beauty, and power providing extreme usability plus full online content.

Show off

With 5 MP rear facing and 2 MP front cameras, Marquee allows users to not only capture the moment, but also have the option to share the moment with video chat.*

*Application must be downloaded to use video chat.
