

# ALL THE FINISHING TOUCHES FOR STAYING IN TOUCH

## AUDIENCE

Staying in constant touch used to be the domain of business power users. Now everybody needs every-minute access to the mobile Internet to share the latest gossip, track the most recent happenings, and generally keep living in the moment. That means sharing their connectivity and digital experience with friends and family, plus having all the mobile tools at their fingertips. It's the Genesis of a good time.

## ATTRIBUTES

The Android™ 2.2 LG Genesis is all about speed, whether you're running apps, typing Tweets on Twitter, or sharing content. Customize five or seven home screens to access shortcuts in a flash. Texts, emails, and IMs roll out QWERTY quick on virtual or real keys. Share music and photos faster without the need for cords via DLNA® sharing. Genesis isn't selfish either—it acts as a Wi-Fi® hotspot\* for up to 5 devices, creating an impromptu network.

\*U.S. Cellular service required, additional charges apply.

# LG GENESIS™

## ADVANTAGES

### LIGHTNING IN YOUR HANDS

Android 2.2 gives you a major speed upgrade, switching between apps in the blink of an eye. Choose from 100,000+ apps at Android Market™.

### WIDELY POPULAR WI-FI

Stay connected on the road by turning Genesis into a Wi-Fi hotspot\* for up to five devices and access the U.S. Cellular 3G Network for them all.

### DUELING KEYBOARDS

Choose a full physical QWERTY keyboard or a virtual one that lets you Swype® your text faster using continuous fingertip motion.

### LARGE TOUCH SCREENS INSIDE AND OUT

A unique side-folder design reveals a 3.2" internal touch display to go with a generous 3.5" external one.

### SHARE OVER THE AIR

Wirelessly stream Genesis' photos, videos, and music to DLNA-enabled devices like TVs, home entertainment systems, and game consoles.

### OODLES OF GOOGLE™

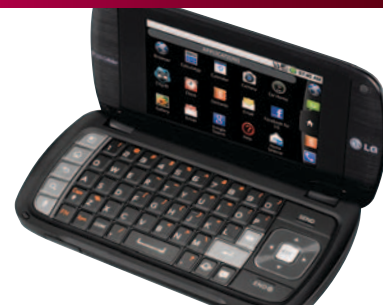

Where do we start? Google Talk™, Gmail™, Google Voice Actions, and Google Maps™ Navigation are just a few of the preloaded goodies.

ANDROID™
