

### Take Streaming Into Your Own Hands

With smart phones and tablet PCs becoming essential tools for business, healthcare and education, LG's N2A2 Network Storage is able to stream information and media directly to portable devices. Open up new possibilities of distributing information to clients, doctors, patients and students. The LG Network Storage lets you go beyond the storage limitations of handheld devices and gain access to videos, music and presentations via the internet. Whether streaming video seminars to students or sharing medical information with patients, the LG N2A2 delivers a new level of interactivity.
