Esteem Media Charging Dock with Standard Battery

Key Talking Points

- *Pick up the Charging dock and show how the phone goes in and how the battery goes in the back.
- In box travel charger is 2 pieces
 - 1 pieces is a Travel Adaptor head
 - 1 piece is a USB/ Micro USB connector
- *Show how these split for charging or data transfer
- Charging Time (Zero to Full Charge)
 - Phone w/ Standard Battery and handset not in use = X<2 Hours
 - Phone w/ Extended Battery and handset not in use = X<4 Hours
 - Phone will always charge before additional battery
- Home
 - On your nightstand? When docked, device will launch into alarm clock mode.
 - In the kitchen? Dock your device and play your favorite tunes while doing the dishes or use as a speakerphone while you cook.
 - In the family room? Dock your device and connect via USB cable (in box with TA head) or HDMI cable (sold separately) to your large screen TV and share movies, video clips or pictures with everyone while utilize the mirror capability of the handset directly to the external screen. Don't worry about streaming a movie and a dying phone, while in use the phone will continue to charge so you don't miss a minute of your favorite flick.
 - NOTE: No HDMI output on media charging dock, charger allows the phone to be docked in a manner that allows the HDMI port of the phone to be easily accessible.
- Office
 - Use your docking station to easily transfer data files or content from your handset to you computer.
 - While docked, the handset sits at an optimal viewing degree to allow the user to scroll through the various screens, view content or use as a speakerphone for conference calls.
- On the Go
 - Easily charges handsets with a standard or extended battery and allows for an extra standard or extended battery to be charged in the rear port.
 - Travelling the next day? Dock your handset and the additional battery overnight and have the extra charge you need for a long day on the go.

LG HBS-700 Tone

COMPATIBLE LG BLUETOOTH

Snapshot

The HBS-700 *Bluetooth® Stereo Headset* brings you the high-quality listening experience of stereo sound with the convenience of *Bluetooth wireless* technology. The Magnetic Ear Phones snap into place in the stylish, streamlined Memory Flex Neck Strap for easy storage, and they pop out just as easily for comfortable wear. Music controls right on the neck strap mean you can leave your phone in your purse or backpack and still play, pause, rewind, or fast forward. And with the HBS-700's Multi-connection capability, you can enjoy your music collection on your computer and then switch seamlessly to a call on your mobile phone.*

MSRP : \$69.99

LG HBS-700 Tone

COMPATIBLE LG BLUETOOTH

Key Talking Points

- *Keep the device on your neck and model through the key features.
- 10 Hours of Music/ Media/ Talk Time
- 360 Hours of Standby Time
 - On/ Off Switch so you never need to wonder if someone is hearing your conversation or if it is training your battery or.... Did I hear the off beep???
- Ease of use
 - Everything is right at your neck...
 - Volume Up/ Down
 - Side note, hold both down at same time and get a sound boost.
 - Next Song/ Repeat
 - Phone Answer or Redial
- In the Gym
 - On the treadmill or lifting weights, this allows you to be unwired but always connected to your calls and your music. Tested and proven to be sweat resistant by runners, tri-athletes and general fitness enthusiasts.
 - If you are running or biking you can either amplify your training soundtrack with stereo sound by using both earbuds.
 - Or, use one earbud for music or calls and leave one free to listen out for dangers around you.
- In the Car
 - Can't use stereo while driving, against the law and overall unsafe.
 - But, when you are done with your commute and you want to continue your conversation, pop in the other earbud and experience a more private, noise reduced call.
- In the Office
 - Most of us live in cube land and conference rooms can be hard to come by but who wants to have a call with all the other noise and conversations going on around them? Pop in both headsets and create your own conference room environment. Listen in to call details more clearly and with less outside interruption.
- On the Go w/ Esteem...
 - Face to Face
 - Have a truly 1:1 Face to Face call with who ever is on the other line. Stereo in the conversation and lose yourself in the corner of an airport or restaurant.
 - Entertainment
 - Stuck in line at the DMV? Watch your favorite U-Tube clips and listen to the hilarious storylines with your own private theater.
