TECHNOLOGY BENEFITS

- LoDecibel[™] Quiet Operation
- Highly Energy and Water Efficient

NSF certifies the SANITARY cycle which is intended for reducing 99.9% of bacteria and other harmful microscopic organisms on laundry.

LG front load washers exceed Energy Star® classifications by a minimum of 39%.

WM2101HW

Front Load Washer

Electronic Control Panel with Dial-A-Cycle™

Intuitive controls allow you to 'press and go'.

Direct Drive Motor

Power is delivered right to the drum from the motor without belts, resulting in a highly durable, powerful and quiet washing machine.

Sanitary Cycle

Get tough stains and bacteria out of dirty clothes with this special cycle that boosts water to 158°F.

LoDecibel™ Quiet Operation

Direct Drive and auto balancing reduce noise dramatically compared to conventional motors.

SenseClean™ System

The water level and wash time are set automatically based on the weight and size of each load for optimal washing care.

Stackable or Side by Side?

Your choice. Less space? Try stacking the washer and dryer. More space? Place them side by side or under a counter. Don't want to bend down so far to load or unload clothing? Add our 13.7" high drawer pedestals. They're also a great place to store laundry detergent supplies.
