LG NeON® R ACe

**Advantages:**

- **High Power Output**
  - 375 W Output

- **Low Temperature Coefficient**
  - The NeON® R ACe has a low temperature coefficient of -0.3%/°C

- **Physical Durability**
  - LG NeON® R ACe panels are designed to endure a front load of up to 5400 Pa and a rear load of up to 4000 Pa.

- **Low Light Induced Degradation (LID) Rates**
  - LG NeON® R ACe panels have low LID rates because our modules are made with N-type wafers based on doping with Phosphorus. As a result, they experience less performance loss when exposed to light than modules made with p-type wafers.

- **25-Year Warranty**
  - LG offers a 25-year product, performance, and labor limited warranty (labor costs in the rare case of a needed module repair or replacement are covered up to $450).

- **Bankable Brand**
  - LG is proud of our brand transparency, data availability, and technical due diligence. A combination of these factors led to the honor of being recognized by Bloomberg New Energy Finance as a Tier 1 Solar Manufacturer in 2020.
