

California SB 1215 Requirements

- 1. Product Labeling:** On and after January 1, 2026, any new or refurbished Covered Battery-Embedded Product (CBEP) sold in the state must have the manufacturer's name or brand label clearly and visibly displayed on the item itself (PRC section 42466.1(a)).
- 2. Website Disclosure of Battery Chemistry:** On and after January 1, 2026, Battery chemistry information must be displayed on the manufacturer's internet website, identifying the specific battery chemistry used in each covered product. (PRC section 42466.1(b)). The following list is specifically intended to fulfill this second requirement.

Brand	Product Description	Model	Battery Chemistry
LGE	SystemBoiler&Hydrokit	ARNH423K2A4	MS621FE - Lithium-Manganese & Lithium-Silicon
LGE	Heating/Cooling Hydro Kit	ARNH423K3A4	MS621FE - Lithium-Manganese & Lithium-Silicon
