

TWO SCREENS, 1 SOCIAL LIFE, ZERO MISSED TEXTS.*

I'm the center of my social universe—and so is my phone! In fact, DoublePlay is totally dedicated to keeping up with my life 24/7 with its two touch-screens that operate either independently or in tandem for ultimate multitasking. That way I never miss a single text and I'm always in on the action—plus I never have to quit games or social networks to reply or check my calendar, like I would with other phones. It's clear; this is a phone as serious about connecting as I am!

As perfect as my DoublePlay is for socializing, it's equally awesome with everything else too: a unique sleek slide-out split qwerty with the effortless Android™ operating system makes accessing friends and features fast and fun. Plus having Google™ apps built-in means web searches and email are super easy too! And with this powerful 5 MP camera on board, my social networks will never suffer from an out-of-date profile pic! This phone's got me—and all my text buddies—covered!

doubleplay™

Built to Perform

With the split keyboard and dual screens I can do all kinds of things at once, like check my calendar while sending an email, or stream a video *while* posting it to my Facebook!

Smart Meets Simple

Android 2.3 platform is so smooth, brilliant and customizable, it gives me the most complete mobile experience I've ever had!

Effortless Info

Google integration means all of my Google accounts are all in one streamlined place...my email, IM, calendar, docs...all synced, all mine.

Snap Away

5 MP camera takes pictures as nice as my mom's point-and-shoot camera, and just as easy.

Hey Everyone!

Cloud and group texting means I reply to friends at top speed, and include a bunch of them, all at once!
