

REVERE™

SIMPLICITY IS CALLING. SAY HELLO!

Some folks want a phone that is a pocket computer, a personal assistant, and a way for work emails to reach them at all times.

Well, that's not me. My ideal device would be compact and sturdy, made to withstand rough-and-tumble times, have a few extras, and make calls in a snap. And at the same time I need it to look good when I have to go out for a night on the town.

I must say, LG must have designed the Revere with me specifically in mind. It's a solid little phone with a sleek body, and keys not only large enough to press individually, but I can actually see them too! It also has Mobile Web, meaning I have the freedom to check the weather or my teams' scores when I'm out and about enjoying my life. What else is there to say, other than it's perfect for me?

Essential Elements

With the dynamic and clear 2" display contained in the durable, round design, I'm sure I am carrying a phone that looks as good on the inside as it does on the outside.

Eyes on the Road

With *Bluetooth*® connectivity I enjoy knowing that my driving is safer with minimized distractions and my hands on the wheel.

Online on the Go

Having the convenience of Mobile Web and Mobile Email means I never miss a beat while being out and about, giving me the freedom to enjoy every day to the fullest.

GPS Capability

What a miracle! To never be lost again! With GPS capability, getting where I'm going has never been easier!
