

myTouch

myTouch

Why did I finally get a smartphone? Because at last someone has made the right one for me, with the important things I wanted, and nothing I didn't. The operating system is intuitive, there aren't a bunch of fancy features I'll never use—basically it's intelligent convenience with a beautiful touchscreen right in my pocket. Now that's perfect!

Simple Setup - New devices can be frustrating, but this phone is designed to be different with instructive tips built right-in!

Good Listener - When I'm driving, cooking, or otherwise occupied, the Genius button lets me easily operate key functions by voice command.

Logical Layout - The App Drawer is like your ideal desk, purse, or glove compartment: only the essentials. No junk you don't use.

Fingertip Fun - You've got a big screen, powerful processor, and fast connection, and with movies, TV and radio built in, you can take advantage of on-the-go entertainment!

Forget Lost - How many times have you started driving somewhere and then realized you forgot directions? With turn-by-turn GPS, that problem is solved.
