- IntuiTouch™ Keypad
- GoCook™ Oven Light
- 12 Hr. Automatic Shut-Off
- Self-Cleaning  
(Upper and Lower Ovens)
- Recessed Broiler  
Safe for your hands

Infrared Grill

## WHERE HOME COOKING MEETS HAUTE CUISINE

With the hottest of innovations, this freestanding electric double oven will help take your cooking to the next level. Enjoy the convenience of a large capacity double oven and the added versatility of the industry's tallest upper oven. Save time, and prepare juicier meats, with our Infrared Grill System – LG's first infrared heating element.

#### Tallest Upper Oven

LG provides you with the tallest upper oven in the industry, allowing you to bake and broil tall items in the smaller oven without having to preheat a big oven. The 6" height allows for easier access to insert or remove items from the oven.

#### Infrared Grill™ System

LG's first infrared heating element gets your oven to broil temperature more quickly and cuts 30% off your cooking time on common items like hamburgers and chicken breasts. Infrared cooking – which uses the same technology as premium outdoor grills – also allows your food to be juicier than traditional thermal cooking.

#### Large Capacity

Cook two meals at once – Allows you to cook different dishes at different temperatures all at the same time. Gives you room for everything you'd need for a holiday dinner.
