Interactivity

- KnockON – double tap the screen to put your phone to sleep/wake it without picking it up or pressing the Power/Lock Key
- Knock Code – simple, secure ways to wake and unlock your phone at the same time
- QSlide Function – overlay up to two windows with adjustable sizing and transparency on the primary screen for easy multitasking
- QuickMemo – create and share personalized memos by taking screen captures and adding handwritten drawings or messages with compatible LG phones
- Quiet Mode – specify times to disable notifications for calls and messages
- EasyHome – show the dialer and other frequently used features right on the home screen
- Guest Mode – create a separate unlock screen pattern for guests with preset access and restrictions*
- Capture Plus – save an entire web page as an image to view later
- Clip Tray – copy and paste multiple items to a slide-up clipboard, then select later to use or share
- On-Call Notes – access the QuickMemo app to take notes while on a call
- Smart Screen – screen will stay active as long as eye movement is detected
- Full HTML Web Browser with Google™ Search
- Text, Picture, Video, and Audio Messaging†

* Some owner/personal content and information may still be accessible to a user in Guest Mode.
