AT&T Ready2Go

Set up your device quickly and easily by using Ready2Go:

- Set up Email accounts and Facebook®
- Sync your contacts and calendar
- Connect to Wi-Fi®

You can use Ready2Go when you first activate your device or open it later from the app tray. The wizard will guide you through the setup process.

Note: To skip the wizard, tap **not now** > **exit**. To return to the wizard from the home screen, tap ⊞ > 📱.

Customize Your Phone

Home Screen

① Press and hold an empty spot on a home screen and choose a category:

- **Apps:** Add shortcuts from the app tray.
- **Widgets:** Add dynamically updating widgets.
- **Wallpapers:** Change your wallpaper.

② To move an item, press and hold it and drag it to a new location. To delete it, drag it to **Remove**.

Your Sounds

From the home screen, press and hold ▭ and tap **All settings** > **Sound** > **Volumes**. You can change your ringtones, set notification sounds, and adjust your touch feedback options.
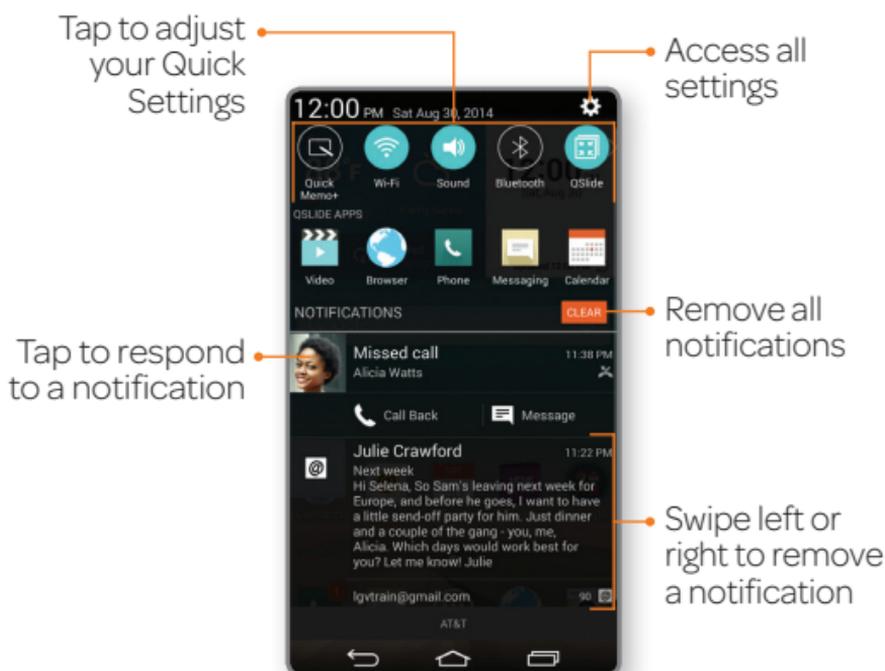

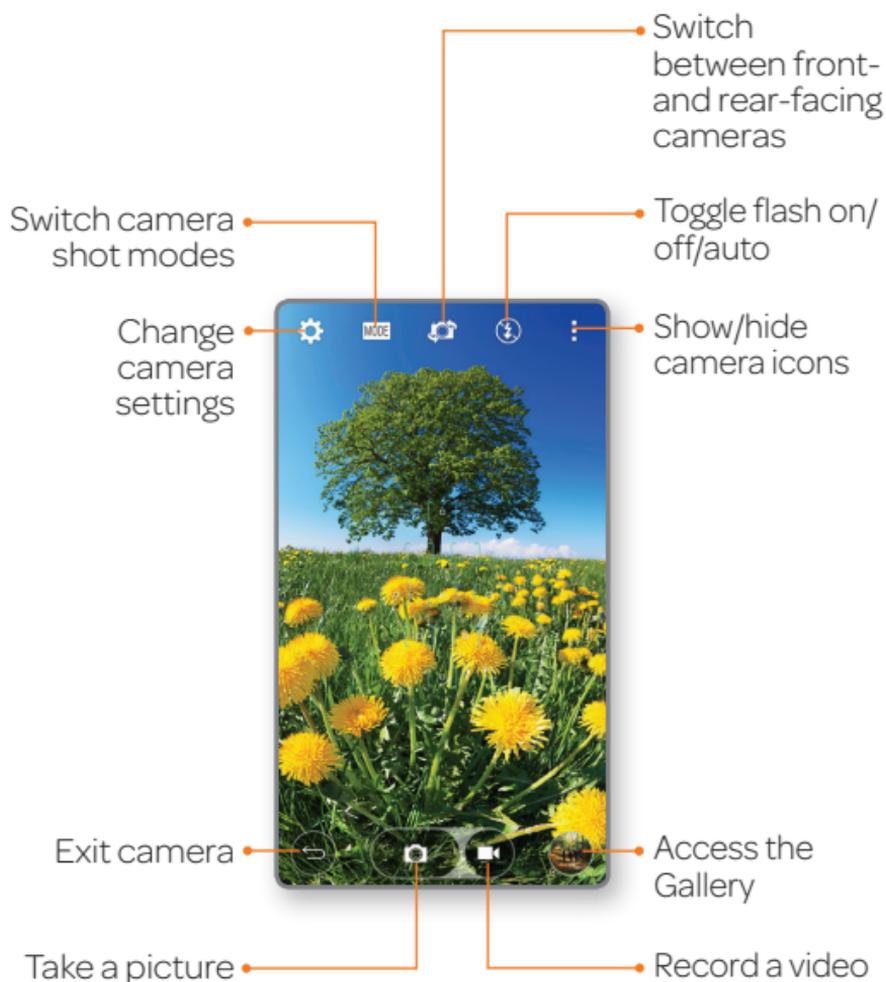

Touch Screen

KnockON

KnockON is enabled at default. Double tap an empty part of the screen or the top bar to lock the phone. Double tap again to wake it.

Record a video

Share Photos

① Tap the thumbnail in the lower right of
the screen.

② Tap [share icon].

③ Tap an option and follow on-screen
instructions.

Transfer Music and Pictures

① Connect your device to your computer with a USB cable. Steps may vary depending on your operating system.

② You may be prompted to install PC programs. Tap **OK** > **Media sync (MTP)**.

③ On your PC, choose **Open device to view files** using Windows Explorer.

④ Your phone will appear as another hard drive on your computer. Click on the drive to view it.

⑤ Drag and drop your files* into the corresponding folders, such as Music, Movies, or Pictures. You can also transfer files from your PC to your phone.

⑥ When you're finished, swipe down on top of the screen. Tap **Media device (MTP)** > **Charge phone**. You may now unplug your device.

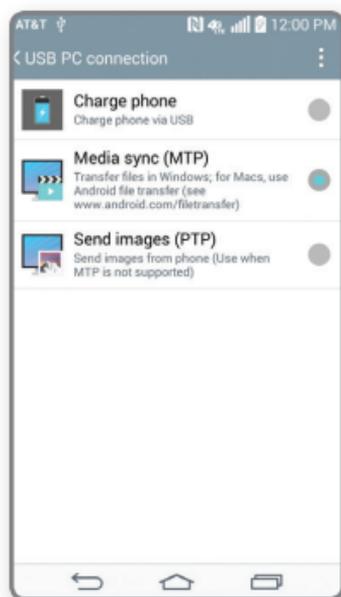

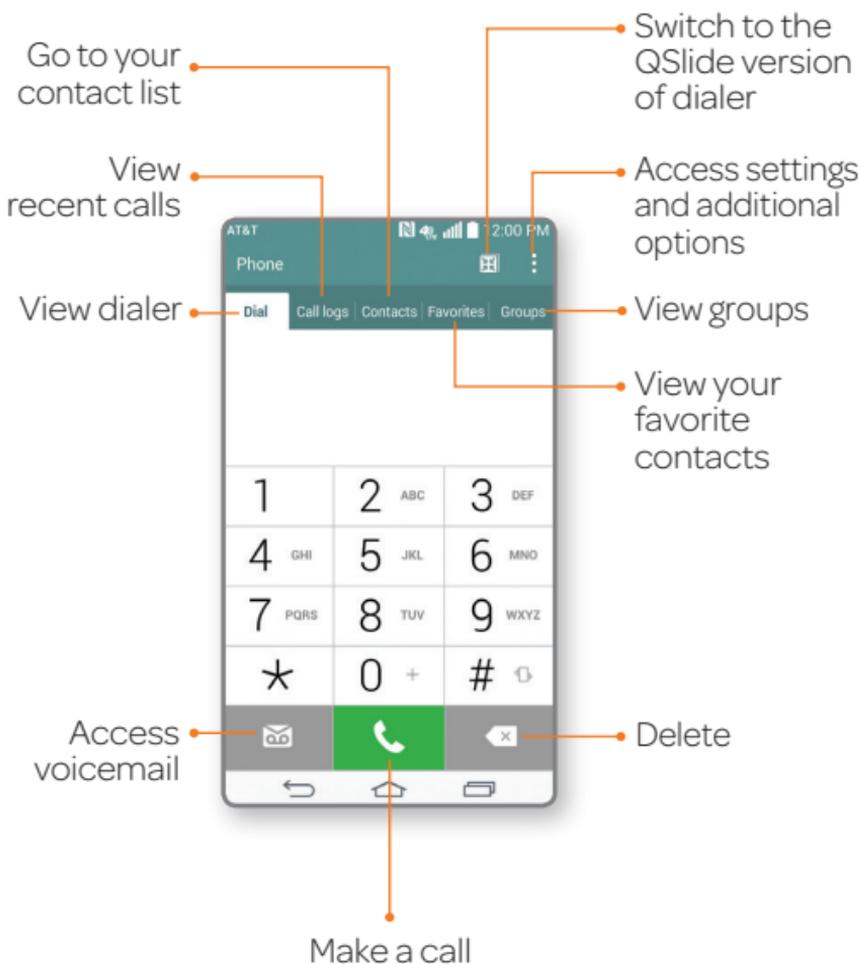

*Files must be Digital Rights Management (DRM) free.

Calls and Voicemail

Visual Voicemail

View your voicemail messages as a list in your mailbox and play them in the order you like. From the home screen, tap ⚬ > 📼.

Today

Want to get dinner on Friday? I
was thinking Thai.
                                        10:16 AM

Sounds great! What time?
                                        10:20 AM

How about 7:45?
                                        10:25 AM

Perfect!   Send

Input Language

Change Device and Input Language

① From the home screen, press and hold ▭ and tap **All settings** > **General** > **Language & input**.

② To change the device language, tap **Language**.

③ To change the keyboard input language, tap ⚙ next to the desired keyboard.

④ Tap **Input language and keyboard layout**.

⑤ Tap a language to select it. You can change languages by tapping ⚙ when you have a keyboard open, for instance while typing a text message.
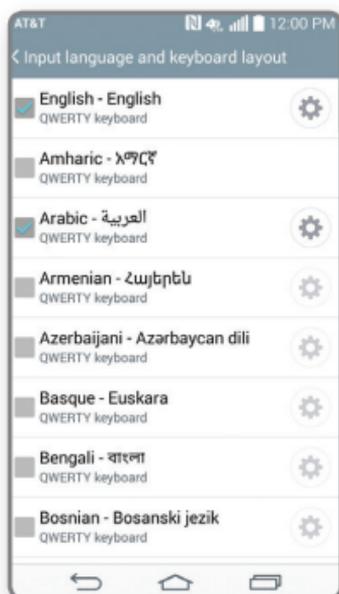

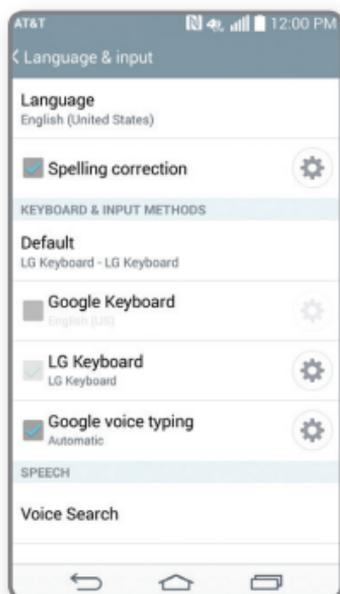

Knock Code™

Get direct access to the home screen while keeping your phone secure.

Setup

① From the home screen, press and hold 🔲 and tap **Lock screen settings** > **Select screen lock** > **Knock Code** > **Next**.

② Follow the on-screen prompts to set up a Knock Code and backup PIN.

Use

- When the screen is dark, enter your Knock Code anywhere on the screen.
- If you enter your Knock Code incorrectly 5 times, you'll be prompted to enter your backup PIN.

Dual Window

Interact with two apps at once. To launch Dual Window, press and hold ⬅.

Tap to open your two most recently used apps

Drag an app to the top and bottom of the screen

Drag to adjust window size

Mini View

Enable Mini View for one-handed usage of the LG G Vista.

Tap to close the window

Drag to change the window's position on the screen

Drag to resize the window

Swipe right or left across bottom row keys on any screen

Wi-Fi and *Bluetooth*®

Connect to Wi-Fi

① From the home screen, press and hold 🔲 and tap **All settings** > **Networks** > **Wi-Fi**.

② Tap (OFF ON) to turn on Wi-Fi.

③ Tap a network name. Enter a password if required and then tap **Connect**.

Use Bluetooth

① From the home screen, press and hold 🔲 and tap **All settings** > **Networks** > **Bluetooth**.

② Tap (OFF ON) to turn on *Bluetooth*.

③ The LG G Vista will automatically search for devices. Tap a device to pair. See the *Bluetooth* device's user manual for more information on pairing.
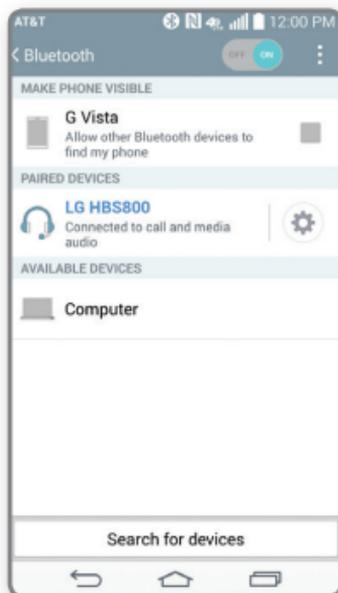

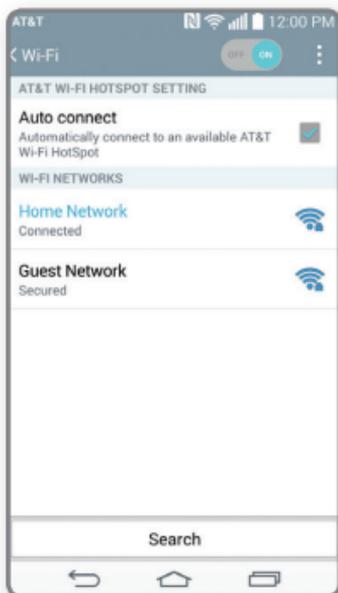

Network Indicators

Your 4G LTE wireless device will indicate which of the AT&T wireless networks you are connected to. A network indicator does not necessarily mean that you will experience any particular upload or download data speeds.

4G LTE: Connected to the AT&T 4G LTE network.

4G: Connected to the AT&T HSPA+ network. The AT&T HSPA+ network is capable of delivering 4G speeds when combined with enhanced backhaul. 4G availability is increasing with ongoing backhaul deployment.
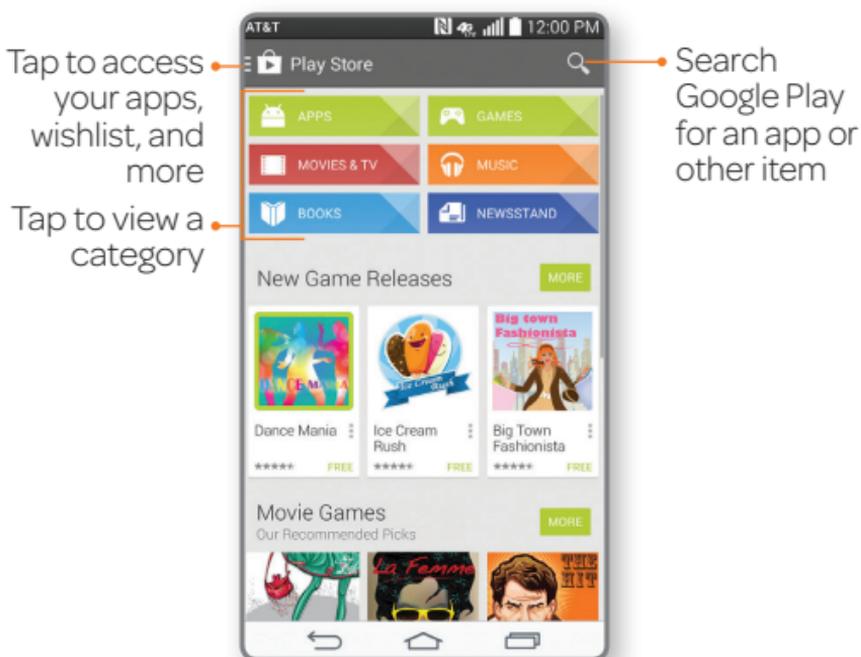

E: Connected to the AT&T EDGE/2G network.

Actual data upload and download speeds depend on various factors, including the device, network utilization, file characteristics, terrain, etc. Learn more at: **wireless. att.com/learn/articles-resources/wireless-terms.jsp**, your AT&T Wireless Customer Agreement, Section 3.2 "Where and How Does AT&T Service Work?"

4G LTE not available everywhere. LTE is a trademark of ETSI. Learn more at **att.com/network**.

Google Play™

Once you have set up your Google™ account, you can download apps, music, movies, and more from the Play Store.

Tap to access your apps, wishlist, and more

Tap to view a category

Search Google Play for an app or other item

AT&T Services

AT&T offers a multitude of apps designed to make your everyday life easier.

myAT&T: Track your usage, review and pay your bill, and update your data plan services.

AT&T Mobile Hotspot: Share your mobile network data connection with other Wi-Fi devices.

AT&T Locker™: Safely store and share all your photos, videos, and documents with up to 5 GB of free storage.

AT&T Mobile Locate: Back up contacts and media, locate a lost device, and get device support.

AT&T Navigator®: Get voice-guided, turn-by-turn driving directions and traffic updates.

Mobile TV: Watch LIVE and on-demand mobile TV.

AT&T Smart Wi-Fi: Maximize your battery performance and data plan, simplify access to AT&T Hot Spots and Wi-Fi networks, automate your Wi-Fi connections, and track your data usage.
