

Get to Know Your Phone

Setting Up Your Phone

Welcome to Verizon Wireless. You're now part of a growing movement that's about speed, signal and strength. This guide will show you how to set up and use your phone, access special features, and find help.

Step 1. Remove the Back Cover

Place your fingernail in the cutout at the bottom of the phone and pop the cover off the phone.

Step 2. Insert the Battery

Insert the battery, making sure to align the gold contacts. Press down gently to secure the battery.

Step 3. Replace the Back Cover

Place the back cover over the back of the phone and press down along the edges to secure it.

Step 4. Charge the Phone

Before turning on your phone, charge it fully.

1. Connect the USB cable to the charger adapter.
2. Plug the other end of the USB cable to the Charging/USB port and the charger adapter into an electrical outlet.

CAUTION! Please use only an approved charger to charge your phone. Improper handling of the charging port, as well as the use of an incompatible charger, may cause damage to your device and void the warranty.

Optional: Insert the microSD™ Card

If you have a microSD card, open the microSD card slot and slide the microSD card into it (as pictured below).

NOTE: The microSD card is sold separately.

- | | |

Your Wireless Device and Third Party Services

Verizon Wireless is the mobile carrier associated with this wireless device, but many services and features offered through this wireless device are provided by or in conjunction with third parties. Verizon Wireless is not responsible for your use of this wireless device or any non-Verizon Wireless applications, services and products including any personal information you choose to use, submit or share with others. Specific third party terms and conditions, terms of use, and privacy policies shall apply. Please review carefully all applicable terms and conditions and policies prior to using this wireless device and any associated application, product or service.

Hearing Aid Compatibility Information

This phone has been tested and rated for use with hearing aids for some of the wireless technologies that it uses. However, there may be some newer wireless technologies used in this phone that have not been tested yet for use with hearing aids. It is important to try the different features of this phone thoroughly and in different locations, using your hearing aid or cochlear implant, to determine if you hear any interfering noise. Consult your service provider or the manufacturer of this phone for information on hearing aid compatibility. If you have questions about return or exchange policies, consult your service provider or phone retailer.
