Setting Up Your Phone

Welcome to Verizon Wireless. You're now part of a growing movement that's about speed, signal and strength. This guide will show you how to set up and use your phone, access special features, and find help.

Step 1. Remove the Back Cover

Insert your fingernail into the slot located on the lower left of the back cover and lift the cover up gently.

Optional: Replace the SIM Card

The SIM card is pre-installed in your phone. If you need to replace your SIM card, locate the slot for the SIM card (the lower of two slots under the back cover) and gently slide the SIM card out to remove it.

Optional: Insert the microSD Card

If you have a microSD card, slide it into the microSD card slot (the upper of the two slots under the back cover).

NOTE: The microSD card is sold separately.

Step 2. Insert the Battery

Insert the battery, making sure to align the gold contacts. Press down gently to secure the battery.

Step 3. Replace the Back Cover

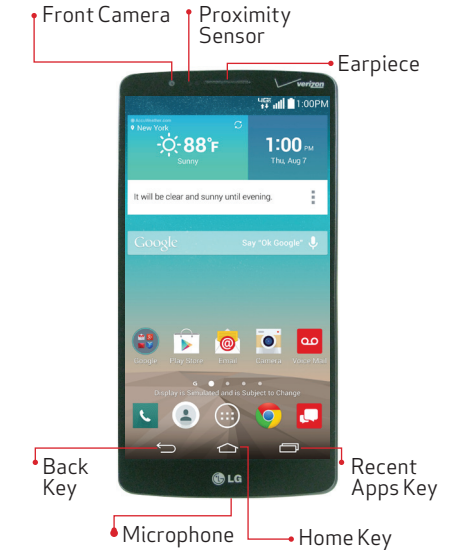

Place the back cover over the back of the phone, and then press down along the edges to secure the cover.

Step 4. Charge the Phone

Your phone comes with a USB/Charger Adapter and a USB cable that connect together to charge your phone. Before turning on your phone, charge it fully.

WARNING! Please use only an approved charging accessory to charge your phone. Improper handling of the USB/Charger Port, as well as the use of an incompatible charger, may cause damage to your device and void the warranty.

NOTE: Devices and software are constantly evolving—the screen images and icons you see here are for reference only.
