

LJ500B Series

720p LED TV

32"

* Class size: See below for details.

720p HD

60Hz

Color Master Engine

KEY FEATURES

HIGHLIGHTS

FEATURES

LED

LED uses tiny, energy-efficient light-emitting diodes to illuminate the picture. The new standard in HDTVs, LED is superior to older CCFL technology, making slimmer televisions possible, with amazing brightness, clarity and color detail.

Color Master Engine

Greener grass. Bluer skies. Richer sunsets and skin tones. Colors all look better than ever thanks to this special process that enhances the entire wheel — red, green, blue, cyan, magenta and yellow — as well as their hue and luminance.

HDMI

HDMI (high-definition multimedia interface) is the modern standard for top quality when connecting audio and video devices, able to conveniently carry premium digital picture and multichannel sound over a single cable.

PICTURE QUALITY

Resolution	HD (1,366 x 768)
Refresh Rate	60Hz
