

MONITOR

22" Class Slim LED Monitor

22EN43T-B

KEY FEATURES

- LED Backlighting
- Full HD 1080 Resolution
- Super Energy Saving
- Dual Web

AMAZING PICTURE QUALITY AND ENERGY SAVINGS

The LG EN33 monitor features LED lighting and Full HD 1080p resolution for detailed colors and clear picture quality. And, with Dual Web, you can easily multitask by viewing multiple web pages on the same screen.

LED BACKLIGHTING

Want deeper blacks and richer colors? LG's LED technology provides even greater control of brightness and delivers better contrast, amazing clarity and color detail, as well as greater energy efficiency compared to conventional LCD Monitors.

FULL HD 1080P RESOLUTION

This stunning picture is the reason you wanted HD in the first place. With almost double the pixel resolution, Full HD 1080p gives it superior picture quality over standard resolution. You'll see details and colors like never before.

SUPER ENERGY SAVING

For conventional LED monitors, power consumption may be reduced if luminance is reduced, but the display image turns dark. LG's SUPER Energy Saving technology helps to reproduce images and maintain brightness while saving on overall power consumption.

MONITOR
