4K Ultra HD (3840 x 2160)

TruMotion 120Hz

UHD Mastering Engine

Tru Black Panel

HDR Pro

4K Upscaler

webOS 3.0

ENERGY STAR® Qualified

UHD

Ultra High Definition TVs offer four times the resolution of Full HD televisions: 3,840 pixels wide by 2,160 lines high. UHD, also known as "4K," delivers exceptional clarity and detail for everything you watch, even on large screens, even when viewed up close.

HDR Pro

Color and contrast ratio are as important as pixel count, so select LG UHD TVs can process and display new High Dynamic Range content, which dramatically expands available contrast and colors. With HDR Pro, images are now brighter and bolder, coming to life as never before.

webOS 3.0

webOS 3.0 is the latest generation of LG's acclaimed Smart TV platform, adding advanced new features while making it even easier to use. The user interface is more intuitive, mobile devices can connect in new ways, and now it's more fun than ever to find and enjoy exactly what you want to watch.
