Simple is the New Smart

LG **G3**

You strive for greatness and LG makes it simple.

Discover a world where colors are bright, memories stay sharp, and clarity replaces clutter—meet the new LG G3. The first Quad HD smartphone in the US will give your best moments a stage to shine. When it comes to your life and your needs, simple is the new smart.

5.5" Quad HD IPS Display

See stunning imagery and vibrant colors come to life before your eyes on a screen that supports four times the resolution of HD and an astonishing 538 pixels per inch.

A reduced bezel allows for the optimum screen size, expanding on the visual experience.

3,000 mAh Removable Battery

The long-lasting battery attains maximum capacity by using all available space without sacrificing the LG G3's overall slim design.

Streamlined UI

The clean and smart interface eliminates unused features to clear up space while simplifying the overall style of the icons and pages.

Laser Auto Focus

Take clear, precise shots - even in low light settings - by measuring the distance to your subject using a laser beam.
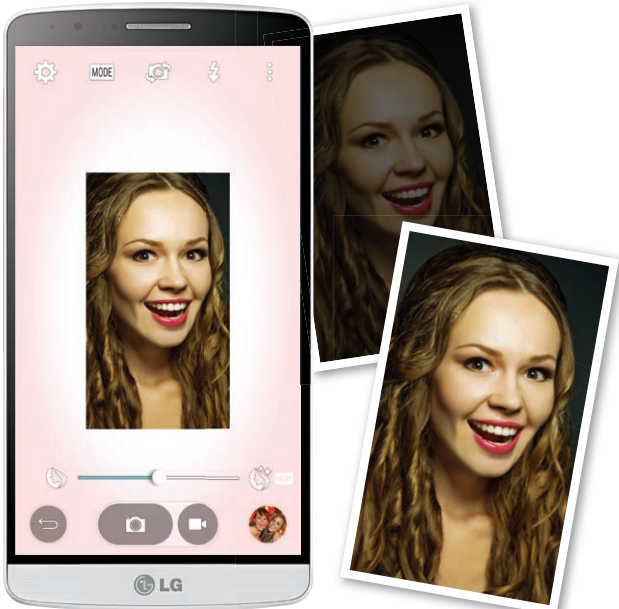

13 MP OIS+ Camera

LG's advanced OIS+ technology steadies every shot, producing sharp and focused imagery in nearly any environment.

Touch & Shoot

Tap the subject anywhere on the screen and the shutter will activate so you can capture every moment with just one touch.

Soft Light

The LG G3's screen softly illuminates around the photo preview for vibrant selfies, even in low light.
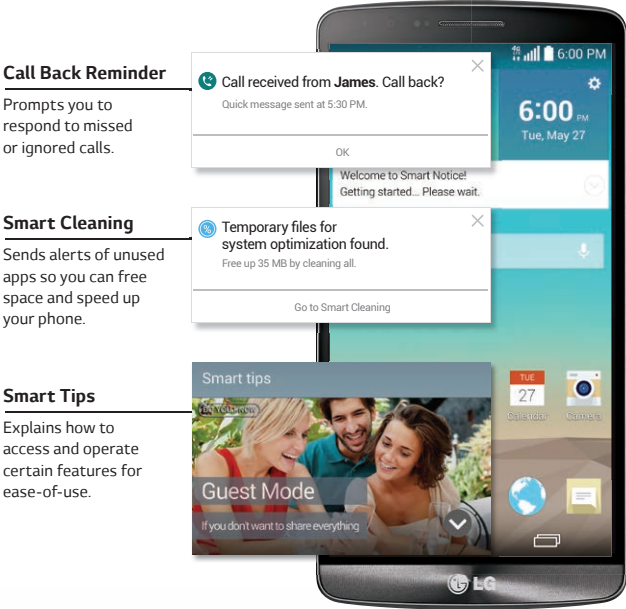

Knock Code™

Tap a secure 3-8 point code to instantly access your home screen, with over 86,000 different possible combinations.
