

### Kid-Friendly Design

- Single Button Control – a unique sequence of button presses makes GizmoPal play sound effects, enter calling mode, and check the time
- IPX3 Water Resistant Rated for Everyday Use (e.g., hand washing)
- Eco-Friendly Design and ROHS Certified (lead-free)
- LED Indicator

### Device Interactivity

- Caregiver Access – up to two pre-authorized caregivers can access GizmoPal through the companion app
- Two-Way Calling\* – call two registered numbers and receive calls from up to four authorized telephone numbers
- Auto Answer Function – when enabled, GizmoPal automatically answers after 10 seconds to allow caregivers to audibly monitor environment
- Time Alert – GizmoPal will announce the time at the top of every hour
- Fun Voice Alert – a fun sound will play when the button is pressed

\* Numbers must be registered through the companion app. GizmoPal permits up to two contacts in addition to the primary caregiver(s). Dependent on carrier coverage. Device must be turned on.

### Companion App Interactivity

- Location Tracking – initiate searches on the caregiver's device to identify approximate location of paired GizmoPal
- Security – set up a 4 digit PIN to protect GizmoPal information and prevent unauthorized users from viewing your child's location or changing any settings
- Frequently Visited Location – add names for locations (e.g., Grandma's house); during location search, place name will be displayed on the map instead of address

- Location Check Function\* – receive alerts at preset times of where child should be
- Location Storage – check history on up to 50 locations (regardless of date)
- Battery Level Notification – when battery falls below 20%, LED glows red and a notification is sent to the primary user's companion app
- Quiet Mode – silence ringtones and sounds
- Volume Control – band volume can be set to high or low through the companion app
- Turn Off Device – remotely power off GizmoPal

\* Available on Android OS only.

<sup>1</sup> Verizon Wireless service required. Product features subject to change. Features based on carrier program availability. Check with your carrier for available accessories. Additional charges may apply.

\*\* Your child's GizmoPal band needs to be turned on and have a wireless network signal. There may be situations when the GizmoPal fails to accurately identify its approximate location, or the smartphone application erroneously displays the device's approximate location. The map data utilized by the GizmoPal to identify and communicate location information is provided by Google, whose services are subject to change and may not be available in all geographic areas. LG makes no representations or warranties about the availability or accuracy of the GPS or about the accuracy or completeness of any map data or other information.
